

ADVANCE NOTIFICATION TO THE NRC OF SHIPMENTS OF CATEGORY 1 QUANTITIES OF RADIOACTIVE MATERIAL

Estimated burden per response to comply with this collection request: 8 minutes. This form is a voluntary means of fulfilling the requirements in 10 CFR 37.77. The information provided will be used to meet the requirement in 10 CFR 37.77 for licensees to submit advance notification of shipment of Category 1 quantities of radioactive material to NRC and States. The notification to governors allows States to be aware of shipments in their jurisdictions, to provide escorts if they consider them necessary, and to respond to any incidents that require a State response. The notification to the NRC provides information that allows the NRC and other Federal agencies to respond in the event of an incident. NRC may share this information with other government agencies to ensure security. Send comments regarding burden estimate to the Information Services Branch (T-6 A10M), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by e-mail to Infocollects.Resource@nrc.gov, and the OMB reviewer at: OMB Office of Information and Regulatory Affairs, (3150-0214), Attn: Desk Officer for the Nuclear Regulatory Commission, 725 17th Street NW, Washington, DC 20503; e-mail: oir_submission@omb.eop.gov. The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the document requesting or requiring the collection displays a currently valid OMB control number.

*This symbol indicates that the information is required by 10 CFR 37.77(b). The other items are voluntary but are requested by the U.S. Nuclear Regulatory Commission (NRC) to enable it to provide more accurate and detailed information for any emergency response.

Note that the preferred notification method to the NRC is through the Operations Center by e-mail or facsimile at least 4 days before the scheduled shipping date. The notification to the NRC may be made by e-mail to RAMQC_SHIPMENTS@nrc.gov or by fax to (301) 816-5151. Shippers should coordinate with States as indicated in 10 CFR 37.77(a). The NRC requests that the shipper also notify the agency with a confirmation of the departure date within 1 day after the actual shipment departure and with a confirmation of the arrival date within 1 day after the actual arrival.

Under 10 CFR 37.77(c)(1), any change in the shipment information supplied above must be provided to the States and the NRC as soon as the information becomes available but before the commencement of the shipment. Under 10 CFR 37.77(c)(2), notification of changes to the shipment schedule while the shipment is in transit must be made immediately to the NRC Operations Center and the appropriate States.
