SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection. The Magnuson-Stevens Fishery Conservation and Management Act (MSA) authorizes and requires that the Secretary of Commerce maintain a cost recovery program to cover part of the management, data collection and analysis, and enforcement costs of the limited access privilege programs, such as the Pacific Coast Groundfish Trawl Rationalization Program (Trawl Program). Cost recovery fees may not exceed three percent of the ex-vessel value. The Trawl Program cost recovery program requires fish sellers to submit fees to fish buyers who then submit those fees to NOAA's National Marine Fisheries Service (NMFS). Fish buyers must also submit information to NMFS on the volume and value of harvested groundfish when submitting the fees. Information is collected from monthly and annual reports as well as non-payment documents when necessary.

The information collected is used to track the payment of cost recovery fees, reconcile cost recovery payments with landings data from other sources, calculate average ex-vessel values, and, if necessary, help in the resolution of non-payment issues.

This program is authorized under the Pacific coast groundfish fishery regulations, trawl rationalization cost recovery program at 50 CFR 660.115.

II. Method of Collection

Cost recovery fee payments for the Trawl Program must be submitted online through the Federal web portal Pay.gov. Annual reports may be submitted by mail or email. Payments for the Shorebased Individual Fishing Quota (IFQ) and Mothership (MS) sectors cost recovery fees are submitted online monthly through Pay.gov. The Catcher Processor sector submits cost recovery fees online yearly through Pay.gov. All payments must be made online.

The MS sector submits an annual report yearly by mail or email.
