* Type of construction, if applicable (circle): pile driving / blasting / dredging

Trash or Debris (circle): None / Low / Med / High	# Fishers: ____
---	-----------------

Other Marine Mammals

Species _____ # ____ Species _____ # ____

Notes

Any notable changes in the environmental conditions or degree / type of human activities observed on site. If you relocate to a different part of the site, please note the reason and time for that relocation (e.g., observer X moved up river to continue monitoring a group of belugas). **Please keep at least one observer at the main site for the duration of the monitoring session.**
