

For downloading temperature loggers, volunteers are using the free cell phone app HOBObconnect and sending the data files to NOAA.

The screenshot shows a web browser window displaying the product page for HOBObconnect. The browser's address bar shows the URL <https://www.onsetcomp.com/products/software/hobobconnect>. The page features the HOBOb logo in the top left corner and a navigation menu with links for Products, Applications, Support, and Who We Are. Below the navigation, the breadcrumb trail reads "Home / Products / HOBObconnect".

The main content area includes a large image of a laptop, tablet, and smartphone displaying data graphs. To the right of the image, the text reads: "PART NUMBER - HOBObCONNECT", "HOBObconnect® Monitoring App for HOBOb MX Data Loggers", and "Streamlined configuration, data collection & logger management".

Below this, an "IMPORTANT INFORMATION" section contains the text "Download HOBObconnect iOS" and a "Download on the App Store" button. Further down, there is a "Download HOBObconnect Android" section with a "GET IT ON Google Play" button. A "Chat with an Expert" button is located in the bottom right corner.
