Screen shots of SAFMC Release data entry page on released fish. Three images are provided to see full data fields collected.

SAFMC Release paper form.

SAFMC Release			
This is a form to help record information on released shallow water grouper as part of the Citizen Science Program's SAFMC Release project. It can be used to help record information while fishing that can then be entered in the SAFMC Release mobile app using your individual account. If you would like to help collect data, but do not have access to a smart phone - please send your completed form to julia.byrd@safmc.net.			
Fishermen Information		Trip Information
