**Submission Date:** December 8, 2022

**Circumstances of Change Request for OMB 0920-1318**

The Centers for Disease Control and Prevention (CDC), Division of Global Migration and Quarantine (DGMQ) requests nonmaterial/non-substantive changes to the currently approved Paperwork Reduction Act Information Collection Request: Requirement for Proof of COVID-19 Vaccination for Noncitizen, Nonimmigrant Air Passengers Arriving into The United States from a Foreign Country (OMB Control 0920-1318).

**Background:** CDC submitted an emergency revision request to OMB Control #0920-1318 on June 11, 2022 to remove anything related to the rescinded requirement for air passengers to show a negative COVID-19 test or documentation of recovery from the attestation. The information collection request is currently approved until December 31, 2022.

**Change Request:**

- 1) To align with current CDC guidance that no longer includes a recommendation to self-quarantine after travel, CDC is removing the requirement for excepted noncitizen nonimmigrants to self-quarantine after arrival in the United States from the attestation. Removing this requirement will remove the burden for certain excepted noncitizen nonimmigrants to have to attest self-quarantine after arrival in the United States.
- 2) CDC is also requesting approval to not display the expiration date of the OMB control number on the attestation. Removing it would reduce the burden to airlines to have to print new attestations or any time there are changes to it.
- 3) Adding “series” to the reference to TSA Security Directive 1544-21-03 and Executive Amendment 1546-21-02 on page 1 that are related to the proof of vaccination requirement. By adding “series”, airlines will not need to update the attestation each time the Security Directive or Executive Amendment is extended.

“As directed by the CDC and the Transportation Security Administration (TSA), through the Security Directive 1544-21-03 series and Emergency Amendment 1546-21-02 series, and consistent with CDC’s Order implementing the Proclamation, all airline or other aircraft operators must provide the following disclosures to all passengers prior to their boarding a flight from a foreign country to the United States.”

**Annualized Total Burden Hours:**

There is no change to total estimated burden hours for this non-substantive change request.
