PURPOSE

The National Center on Early Childhood Development, Teaching, and Learning (NCECDTL) will conduct evaluations on all trainings provided by the Center in accordance with their funding proposal. The purpose of these evaluations is to allow participants to provide feedback on their training experience with the goal of improving trainings provided in the future. Additionally, the data collected in these evaluations is used internally to measure trainer performance, overall participant satisfaction with Center performance, and gaps in provided resources. Proposed below is a bank of questions from which questions for evaluations would be selected.

INSTRUMENT

Below is the bank of questions (along with accompanying introductory and concluding text) from which questions are sampled for evaluations. Questions and their response options are provided in the first column; the second column contains any notes about the question (display properties, authorship, etc.) relevant to the question.

Questions labeled "CIB Recommended" are items that are asked by all National Centers as part of the standard evaluation procedure developed as part of the Data & Evaluation Workgroup across National Centers in conjunction with OHS. These questions will be part of every evaluation. The remaining questions will be asked only when appropriate in specific circumstances: either at the request of a trainer, at the request of a Region, or for other CQI or data-specific purposes. Items with **[bracketed and highlighted text]** will be updated to reflect content or other available information specific to the training/evaluation. A sample instrument is available upon request.
