### **Are original proof of age documents required?**

PBGC accepts a copy of any one of the following documents that provide the individual's date of birth:

- Birth certificate
- Baptismal certificate or other church record
- U.S. Passport, expired or current
- U.S. Passport Card, expired or current
- Permanent Residence Card (Green Card)
- U.S. Certificate of Naturalization

### **Is a driver's license an acceptable proof of age?**

No, PBGC does not accept a driver's license as proof of age.

### **What alternate proofs of age are acceptable?**

If one of the above is not readily available, PBGC will accept any two from the list below:

- A notarized statement by the doctor or midwife who was present at the birth indicating the date of birth as shown in the medical records.
- A statement from the local office of the Social Security Administration showing the amount of the Social Security benefit being received and the date of birth of the recipient. A Social Security card is not acceptable proof.

- A vaccination record.
- A school record, certified as correct by the custodian of the record.

- A copy of a birth certificate of the participant's child showing the participant's age at the time of birth.

- An accepted application for life insurance. This must be sent to PBGC by the insurance company.
- An employment record, certified as correct by the custodian of the record.
- A labor union card, certified as correct by the custodian of the record.
- Records of any fraternal organization to which the participant belongs, certified as correct by the custodian of the record.
- An official record of a foreign government or foreign church, certified as correct by the custodian of the record.

- A petition for Naturalization or Certificate of Citizenship.
- An immigration visa or application for Permanent Residence.
- Foreign passport, expired or current.

**Must each document include the individual's date of birth?**

One of the two documents must provide a date of birth. It is preferable that both documents provide date of birth, but if that is not available, one alternate document may specify "age" that validates the date of birth provided in another alternate document.
