

**PROJECT APPLICATION FOR INFRASTRUCTURE RESTORATION**

**Paperwork Burden Disclosure Notice**

Public reporting burden for this data collection is estimated to average 44 minutes per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting this form. This collection of information is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, Paperwork Reduction Project (1660-0017) NOTE: Do not send your completed form to this address.

**Privacy Act Statement**

The collection of this information is authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, §§ 402-403, 406-407, 417, 423, 427, 428, 502, and 705; 42 U.S.C. 5170a-b, 5172-73, 5184, 5189a, 5189e, 5189f, 5192, 5205; 44 C.F.R. § 206 Subpart G; and 2 C.F.R. § 200. This information is collected to provide assistance to eligible jurisdictions and organizations to facilitate the response to and recovery from a Presidentially-declared disaster or emergency, or to provide assistance for hazard mitigation measures during the recovery process. The disclosure of information on this form is voluntary; however, failure to provide the requested information may delay or prevent the agency from receiving funds from FEMA's Public Assistance program.

**Purpose and Applicability**

Permanent Work (Categories C-G) includes activities required to restore a facility to its pre-disaster design (size and capacity) and function in accordance with applicable codes and standards. FEMA uses this form to collect information necessary to support the Applicant's claim. To see all information and documentation that may be requested to substantiate work or costs or for more information, please see *Chapter 8 Permanent Work Eligibility* in the [Public Assistance Program and Policy Guide](#) and the [Public Assistance Resource Library](#). Please contact the State, local, Tribal, or Territorial emergency management office for additional information.

Recipients and Applicants should use PA Grants Portal to submit all documentation and information to FEMA. Questions are displayed in an intuitive manner to show the information and documentation needed based on answers provided. All signatures are official and legally binding.

The following information is needed to complete this form:

- When, where, and by whom the activities were [will be] completed
- Estimated or actual cost information
- Effects on environmental, floodplain, and historic resources

**Section I - Impact Groups and Project Information**

**Impact Groups**

**Based on previously provided information, the identified impact(s) have been grouped into a project.** <sup>1</sup> [system generated]

**Do the grouped impact(s) need to be modified?** <sup>2</sup>

No

<sup>1</sup> Functionality: Generate default groupings based on the line items selected on the Impact List Addendum. Display all impacts within each group.

<sup>2</sup> Functionality: Allow Applicant and/or PDTFL to modify groupings.

<input type="checkbox"/> Yes. <sup>3</sup> Please provide reason for modifying grouped impacts:			
<b>What is the total cost associated with the newly grouped impact(s)?</b> [system generated] Applicant will be prompted to complete Small Project Information or Large Project Information based upon answers provided.

<sup>3</sup> Functionality: Reason for modifying grouped impacts required. Notify PDTFL to evaluate whether the reason aligns with PAPPG logical grouping. Display all impacts based on selections in the Impact List Addendum and allow each impact to be re-grouped. Do not allow line items marked as “all work is complete” to be combined with line items that are not complete.

<sup>4</sup> Functionality: Generate Declaration #, Legal Name of Applicant, and PAID from the RPA.

<sup>5</sup> Functionality: Generate Declaration # from the Incident Information. Generate Legal Name of Applicant, and FEMA PA ID from the Organization Profile.

<sup>6</sup> Functionality: Assign a Project number.

<sup>7</sup> (Help text) The Applicant may assign a unique title and number for each project application. This title and number may help the Applicant connect this project application to their accounting or other systems..

<sup>8</sup> (Help text) Applicant may assign a unique title to each Project Application for internal tracking purposes. Functionality: Optional, not required.

<sup>9</sup> Functionality: Assign a Project Amendment number.

### Baseline Scope of Work<sup>18</sup>

The information in this section is system generated from the Site Inspection Report/Damage Information. The damage description and dimensions are applied to develop a baseline scope of work which the Applicant can build upon considering repair

<sup>15</sup>Functionality: Generate from "Do you want to make this impact a high priority?" in the Impact List. Show the highest priority level of all selected impacts (i.e., if some are "high" and some are "standard", overall project says "high").

<sup>16</sup> (Help text) The simple approach is the fastest way to request FEMA funding and requires the least documentation. Under the simple approach, once an Applicant's Request for Public Assistance is approved, the Applicant will have 21 days to review information about eligibility for Public Assistance and an additional 60 days to submit all claims to FEMA. Once submitted, simplified claims typically take 30-60 days to process. This option is only available for projects totaling up to \$1,000,000. Generate EHP Addendum if any EHP triggers were identified in the Impact List.

<sup>17</sup> Functionality: Autogenerate from the Damage Information

<sup>18</sup> Functionality: Create baseline SOW from inverse of Damage Description and Dimensions.

**Component:** [system generated]

**Component location:** [system generated]<sup>39</sup>

<sup>36</sup> Functionality: Generate this question if Applicant wants to close all small projects was selected. (More Info) Applicants may request additional funding within 60 days of the work completion on its last small project.

<sup>37</sup> (Help text) The itemized approach enables Applicants to catalog damages, group claims, and provide detailed information to substantiate specific types of costs. The itemized approach is required for Applicants with total claims greater than the large project threshold may be suitable for Applicants who are unsure of what claims are eligible for reimbursement. Under the itemized approach, Applicants should expect to meet with FEMA within 21 days of the approval of their Request for Public Assistance and should expect to itemize damages, collect documentation, and submit claims within 60-70 days. In some cases, based on the nature and complexity of work, this process may take longer. Once submitted, itemized claims typically take 45-90 days to process. This option is available for all Applicants and required for Applicants with claims totaling more than the large project threshold. Generate EHP Addendum if any EHP triggers were identified in the Impact List.

<sup>38</sup> Functionality: Generate from Damage Information Form.

<sup>39</sup> (Help text) Please list the specific location of the component in relation to the overall facility, such as a room or area of the facility, or item specific GPS coordinates. - Replace the facility.

**Is it feasible to repair the facility?**

No. *Please describe why it is not feasible to repair the facility (e.g., apparent based on visual observation that the incident completely destroyed the facility):*

- Replacement will trigger code or standard changes to pre-disaster design<sup>46</sup>
- Applicant plans to relocate the facility<sup>47</sup>
- Applicant is incorporating improvements not otherwise triggered by codes or standards.
  - Change materials
  - Change the size or capacity
  - Change the function<sup>48</sup>

- Abandon the facility<sup>50</sup>

**Do any of the following apply to this work?**<sup>51</sup> *Please select all that apply:*

<sup>43</sup> Functionality: Trigger the Code and Standard section below.

<sup>44</sup> (Help text) The Applicant may wish to make improvements to a damaged facility that are not required by eligible codes or standards. A project that restores the pre-disaster function of a facility and incorporates improvements or changes to the pre-disaster design is an Improved Project. FEMA limits Federal funding for an Improved Project to the lesser of either the Federal share of the approved estimate to restore the damaged facility to its pre-disaster design and function or the Federal share of the actual costs of completing the Improved Project. This should not be combined with other line items. Functionality: Trigger the Improved Project section in the Request for Approval.

See Repair vs. Replacement section of the [PAPPG](#) for more information. Functionality: Trigger Replacement Project section in the Request for Approval.

<sup>50</sup> Functionality: Trigger the Alternate Project section of the Request for Approval.

<sup>51</sup> (Help text) Examples may include changes required due to access issues, site conditions, or to tie into existing infrastructure. The changes must not impact the capacity or function of the facility.

**Did [will] the work to restore the facility require work triggered by a code, specification, or standard?**

- No
- Yes. *Please select all that apply.*
  - Consensus-based code, specification, or standard. <sup>53</sup>

**Did [will] the Applicant build to the triggered code, specification, or standard?**

- No, the Applicant will apply a locally-adopted code that is equivalent or more stringent than the consensus-based code. *If selected, please upload documentation to justify this selection.*
- No, applying the consensus-based code, specification, or standard is technically infeasible and would create an extraordinary burden on the Applicant or would otherwise be inappropriate for the facility. *Please describe why incorporating consensus-based standard is infeasible: Please upload written certification by a registered engineer, design professional, or other qualified individual that the project cannot be designed and constructed to include applicable consensus-based codes, specifications, and standards.*

<sup>52</sup> (Help text) You may upload documentation with at least the same level of information. Functionality: Requested, not required.

<sup>53</sup> (Help text) Minimum codes, specifications, and standards for repair and replacement of eligible facilities are the latest published editions of relevant consensus-based codes, specifications, and standards that incorporate the latest hazard-resistant designs and establish minimum acceptable criteria for the design, construction, and maintenance of facilities for the purpose of protecting the health, safety, and general welfare of the facilities' users against incidents.

Applicants must maintain all source documentation for each Project for 3 years after the date of transmission of the Closeout Form as certified by the Recipient. Recipients must keep all financial and program documentation for 3 years after the date it submits the final SF-425, in accordance with Title 2 C.F.R. §200.334-337. Longer retention periods may apply to real property and equipment disposition, audits, and litigation. Additionally, State, local, Tribal, or Territorial government laws may require longer retention periods.

The requirement to inform FEMA of all purchased equipment with a fair market value over \$5,000 after it is no longer needed for federally funded programs or projects in accordance with 2 C.F.R. § 200.313. FEMA reduces eligible funding by this amount.

The requirement to inform FEMA if the aggregate fair market value of unused supplies purchased for FEMA projects is over \$5,000 after they are no longer needed for federally funded programs or projects in accordance with 2 C.F.R. § 200.314. FEMA reduces eligible funding by this amount.

As required by the Stafford Act § 311, 42 U.S.C. §5154, 44 C.F.R § 206.251-253, and in accordance with FEMA Policy 206-086-1 Public Assistance Policy on Insurance, I acknowledge I must obtain and maintain insurance coverage for all buildings, contents, equipment, and vehicles in an amount equal to or greater than the total cost, prior to any reductions.

As required by Title VI of the Civil Rights Act of 1964, Sections 308 and 309 of the Stafford Act, and applicable provisions of laws and authorities prohibiting discrimination, all work claimed was [will be] delivered in an impartial and equitable manner.

As required by 44 C.F.R. § 206.228 and 2 C.F.R. Part 200.404, the costs claimed were of a type generally recognized as ordinary and necessary for the type of facility and work.

As required by Stafford Act § 312, I certify that I am not claiming any work or costs that are covered by another source such as revenue, non-federal grants, cash donations, another Federal agency, or another FEMA Program (e.g., Individual Assistance programs or Hazard Mitigation Grant Program). If I receive funding for any work or costs in this project application, I will notify the Recipient and FEMA, and funding will be reconciled to eliminate duplication.

Compliance with all codes and standard requirements and all State, local, Tribe, or Territory codes or standards as required by the Stafford Act § 406(e), 42 U.S.C. § 5172(e); 44 C.F.R. § 206.226(d).

All activities on private property must have completed all necessary legal processes and obtained rights-of-entry and agreements to indemnify and hold harmless the Federal Government.

All information provided regarding the project application is true and correct to the best of my knowledge. Upon submittal this project application becomes a legal document. The Recipient or FEMA may use external sources to verify the accuracy of the information entered. It is a violation of Federal law to intentionally make false statements or hide information when applying for Public Assistance. The False Claims Act (31 U.S.C. §§3729-3733) prohibits the submission of false or fraudulent claims for payment to the federal government. Suspicion of fraudulent activities should be reported to the FEMA Disaster Fraud Hotline, the Department of Homeland Security's Office of the Inspector General, or the Department of Justice Fraud Hotline. I understand that, if I intentionally make false statements or conceal any information in an attempt to obtain Public Assistance, it is a violation of Federal laws, which carry severe criminal and civil penalties including a fine of up to \$250,000, imprisonment, or both. (18 U.S.C. §§ 287, 1001, 1040, and 3571).

**Applicant acknowledgements for alternative procedure project<sup>126</sup>**

**I acknowledge that I have reviewed and understand the following information regarding Alternative Procedure Permanent Work Projects.**

*Please initial next to each statement.*

FEMA does not incorporate funds from temporary relocation projects or any other emergency protective measures into fixed cost projects.

The Applicant may not revert to a project funded based on actual costs.

If Public Assistance Hazard Mitigation funding is added to the project, and the Applicant does not complete the approved mitigation, FEMA deobligates the portion of the fixed cost amount related to hazard mitigation.

Once the fixed cost amount is obligated, FEMA considers it reasonable and eligible, as long as there is no evidence of fraud, and the Applicant complies with Federal award conditions.

The Applicant acknowledges that failure to notify FEMA prior to making SOW changes that involve buildings or structures that are 45 years of age or older, ground disturbing activities, or work in or near waterways could result in loss of funding.

The Applicant waives its appeal rights unless it is related to a cost adjustment made by FEMA after the Fixed Cost Offer is accepted.

<sup>126</sup> Functionality: Only include if the Applicant selected yes to accepting the fixed cost offer.

FEMA will adjust the fixed estimate to account for actual insurance proceeds as described in the Insurance Proceeds sections of the [Public Assistance Program and Policy Guide](#).
