

FORM Q-6 FIELD SCALE CHECK 20xx

**NATIONAL
AGRICULTURAL
STATISTICS
SERVICE**

Year, Form, Month.

Region, State, District.

Scale ID.

Date: _____

Scale Assigned
to Enumerator: _____

Scale checked
by Supervisor _____

1 - 5
__ 0 6 __ __
6 - 9
1 __ __ 1
10 - 18
3 __ __ __
19 - 22
0 __ __ __
671
672
673

OFFICE USE

INSTRUCTIONS

The enumerator will weigh the test weights supplied by the supervisor. The supervisor will record the scale readings and the true weights for each test and compute the difference between them. The supervisor will not disclose the true weights until after the tests are completed and should not help or interfere with the weightings by the enumerator in any manner except to verify that the weights are identified correctly.

	SCALE READING		TRUE WEIGHT		DIFFERENCE		TOLERANCE	
						CORN	COTTON	POTATOES
Test weight # 1.	601 ● __		605 ● __		609 ● __	.25 lb	2 g	10 g
Test weight # 1 and 2.	602 ● __		606 ● __		610 ● __	.50 lb	3 g	30 g
Test weight #1,2 and 3.	603 ● __		607 ● __		611 ● __	.75 lb	4 g	

Supervisor will remove from service any scale that does not meet tolerances on all tests.

Was scale removed from service? Yes No 613

Enter code(s) for all crops for which this scale is used..... Corn = 2 Cotton = 3 614
