

National Organic Program

The Organic Integrity Database (INTEGRITY) Instructions

OMB NO. 0581-0191

The Organic Integrity Database (INTEGRITY) is a modernized system for tracking certified organic farms and businesses. With the new database, organic certifiers have been able to add new operations and report changes to existing operations at any time, including being able to report suspended, revoked, and surrendered organic certificates. INTEGRITY allows anyone to search for organic farms and businesses by name, certification status, state, country, products, and other factors. This proposed rule required certifiers to use INTEGRITY to strengthen organic control systems, improve oversight, update annual reporting data, and generate standardized federated certificates. All certifying agents have computerized operations.

- **USDA eAuthentication Enrollment and logging in:**

All certifiers have personal logins and passwords for each employee who accesses the system. INTEGRITY uses the already established USDA authentication system that provides proven security controls. Either NOP or certifier administers certifier staff accounts (certifier's choice). It identifies user to the USDA via their User ID and Password, and then authorizes access to INTEGRITY.

The screenshot displays the USDA eAuthentication website interface. At the top, the USDA logo and 'United States Department of Agriculture' are visible, along with the text 'USDA eAuthentication'. Below this is a navigation bar with links for 'Home', 'About eAuthentication', 'Help', 'Contact Us', and 'Find an LRA'. A breadcrumb trail indicates the current location: 'You are here: eAuthentication > Account Creation'. The main heading is 'Create an Account - Getting Started'. The page is divided into sections for different user types: 'USDA Federal Employees, Contractors, & Affiliates', 'USDA Customers - What Level of Access Do You Need?', and 'Changing from Level 1 Access to Level 2 Access'. The 'USDA Customers' section is circled in red and contains two sub-sections: 'Request Level 1 Access to:' and 'Request Level 2 Access to:'. Each sub-section lists specific requirements and provides a corresponding 'Register for a [Level] Account' button. The 'Changing from Level 1 Access to Level 2 Access' section provides a numbered list of steps and a 'Log into Your Profile' button. A footer at the bottom contains links for 'eAuthentication Home', 'USDA.gov', 'Site Map', 'Accessibility Statement', 'Privacy Policy', and 'Non-Discrimination Statement'.

You are here: eAuthentication > Account Creation

Create an Account - Getting Started

USDA Federal Employees, Contractors, & Affiliates

If you are a USDA Federal Employee, Contractor, or Affiliate of the USDA, you must register for a USDA Internal Account.

[Register for an Internal Account](#)

USDA Customers - What Level of Access Do You Need?

Request Level 1 Access to:

- Visit a USDA web page that indicates a Level 1 account is necessary
- Obtain general information about the USDA or its agencies
- Participate in public surveys for a USDA agency

[Register for a Level 1 Account](#)

Request Level 2 Access to:

- Submit official business transactions via the Internet
- Enter into a contract with the USDA
- Submit forms or applications for the USDA via the Internet

[Register for a Level 2 Account](#)

Changing from Level 1 Access to Level 2 Access

If you already have a Level 1 account and require Level 2 access:

1. Log into your profile
2. Fill in and submit the required information
3. Visit your Local Registration Authority (LRA)

[Log into Your Profile](#)

eAuthentication Home | USDA.gov | Site Map
Accessibility Statement | Privacy Policy | Non-Discrimination Statement | USA.gov

Certifier staff complete a registration application to request an account, and the Certifier Lead activates the user account.

Step 1: Once certifier staff is enrolled, certifier staff clicks “Login” on Home Page to log in.

Welcome to the Organic *INTEGRITY* Database!

Find a specific certified organic farm or business, or search for an operation with specific characteristics. Listings come from USDA-Accredited Certifying Agents. Historical Annual Lists of Certified Organic Operations and monthly snapshots of the full data set are available for download on the Data History page. Only certified operations can sell, label or represent products as organic, unless exempt or excluded from certification.

Scope and Product Summary [Edit...]

Scope	Status	Effective Date	Certified Products
CROPS	Certified	07/01/2009	bananas, berries, apples
HANDLING	Certified	07/01/2013	--

The data elements required on an organic certificate are specified (§ 205.404), and no changes are being proposed to the data required. Currently, certifying agents can produce their own certificate or voluntarily use the standardized format provided in INTEGRITY. Before getting started, this screen allows for the data to be verified before viewing or printing.

Data Element	Template Location
Certifier Name, Address, Web Site, Phone Number – Email Address as Available*	N/A, but review your Certifier Profile contact information for best presentation
Operation Name	Operation Level – Column B
Operation Physical Address	Operation Level – Columns R-W
Operation Mailing Address if Different from Physical Address	Operation Level – Columns X-AC
Operation Certification Status Effective Date	Operation Level – Column H
Issue Date	N/A, today
<i>Optional:</i> Operation Contact Name, Phone, Email and Website	Operation Level – Columns E, F, AD, AE, AF
Operation Anniversary Date	Operation Level – Column I
Operation Scope Statuses	Operation Level – Columns J, L, N, P for Certified Scopes
Certified Items/Products	Item Level – Column H or F/G. <i>Optional:</i> Column I, D/E
<i>Optional:</i> NOP Certification Status**	Item Level – Column J
Item Labeling Categories for Items in Handling Scope	Item Level – Columns Q, R, or S
Item Status Effective Date	Item Level – Column K
<i>Optional:</i> Current Certificate Numbers	Item Level – Column B

The certificate module.

- A certifying agent that voluntarily uses the standardized certificates in INTEGRITY automatically enables use of the certificate module by the public.
- The certificate module is currently not available to public users of INTEGRITY if the certifier does not use the standardized certificates. The certification status of operations can still be viewed without the use of the certificate module even though the certificate cannot be viewed or printed.
- The proposed rule proposes that all certifying agents use the standardized certificates. This will automatically enable the use of the certificate module by all public users of INTEGRITY.

The screenshot shows the USDA Agricultural Marketing Service website. The header includes the USDA logo and the text "United States Department of Agriculture Agricultural Marketing Service". The navigation menu has tabs for Home, Search, Reports, Operations, and Administration. Below the navigation, there is a "Welcome to the Organic INTEGRITY Data" section with a search bar and a "Reset" button. A dropdown menu is open over the search bar, listing "User Accounts", "Registration Requests", "Certifier Profile", and "Certificate Module". Below the search bar, there is a table of certified organic operations.

Operation	Certifier	Info	Status	City	State/Province
<input type="text"/>			Certified	<input type="text"/>	<input type="text" value="Enter State/Province"/>
" VERHNESEROGOZSKIY MPZ " LTD.	[ECO] EcoCert S.A.	i	Certified	KHERSON	
"Helianthus" Llc	[ETKO] Ecological Farming Control Organization	i	Certified	Pereshchepino city	Novomoskovsk
010 Ranch	[ISDA] Idaho State Department	i	Certified	Fairfield	Idaho

Certifiers select *All Operations* or *Selected Operations* and click *Apply* to generate the draft certificates.

Certifier - [MDA] Maryland Department of Agriculture Certifier Profile

Warning: Please wait while your draft certificates are being generated- if certificates are being generated for a large number of operations, it may take a while. You can check back later to preview, publish, and download the new certificates for your records. The Download Drafts & Publish New/Edited buttons will be enabled once your draft certificate generation process has completed.

If you are generating certificates for all operations, when you add new operations to **INTEGRITY**, certificates are automatically generated for your review before publication to the Operation Profiles. If you are generating certificates for all operations or selected operations, when you update operation information new certificates for affected operations are automatically generated with the date of the operation data publication for your review before replacing the old ones. When you click Re-Issue, change the Addenda Message, or request an update to your organization's contact information, all your organic certificates will be updated with the current date and made available for your review before replacing the old ones. You are responsible for downloading certificates and maintaining archives as updates occur.

Summary page for a specific certified operation prior to printing a certificate.

The screenshot shows the USDA Organic Integrity Database interface. At the top, there are navigation links for Home, Search, and Reports. The main header includes the USDA logo and the text 'United States Department of Agriculture Agricultural Marketing Service' and 'ORGANIC INTEGRITY DATABASE'. A sub-header indicates the 'Operation Profile (4830200205) updated on 04/20/2017'. On the right, there are links for 'Return to the Home Page', 'Export to PDF', and 'Print Certificate'. The main content area displays the following information:

Operation Name: Arcadian Fields
Operation Status: Certified
Status Effective Date: 08/20/2002
Certifier: [RIDEM] Rhode Island Department of Environmental Management

Below this, there are two tabs: 'Operation Details' (selected) and 'Product Details'. The 'Operation Details' section shows:

NOP ID: 4830200205
Certifier Client ID: N/A
Other/Former Names: N/A
NOP Anniversary Date: 04/14/2017
Business Types/Services: --

At the bottom, there is a 'Scope and Product Summary' table:

Scope	Status	Effective Date	Certified Products
CROPS	Certified	08/20/2002	Other: Mixed Vegetables, Herbs, Fruits, Transplants

A sample Organic Certificate

The sample Organic Certificate is issued by the Rhode Island Department of Environmental Management (DEM). It certifies Arcadian Fields, NOP ID 4015397043, to the USDA organic regulations. The certificate includes the following details:

Rhode Island Department of Environmental Management
