OMB Clearance Number: 0584-0607
Expiration Date: xx/xx/20xx

Introduction

The U.S. Department of Agriculture (USDA) Food and Nutrition Service (FNS) has contracted with Mathematica to conduct the School Meals Operations (SMO) Study. Updated information about school-based Child Nutrition (CN) Programs will help FNS effectively oversee these programs and inform both policy decisions and future training and technical assistance.

The survey topics cover School Year (SY) 2022-2023 and include:

- School participation
- State-provided universal free meals
- Eligibility determination and verification
- Meal prices
- Funding and expenditures
Preparation note: You will be asked to report the total amount of money owed to your SFA because of unpaid meal charges and the amount that has been recovered since the end of SY 2022-2023.
- Procurement and Buy American
Preparation note: You will be asked to report the percentage of food procurements that were not domestic commodities or products during SY 2022-2023.
- Meal preparation and service

Cooperation by States and districts is required under Section 28 of the Richard B. Russell National School Lunch Act. At the same time, recognizing the administrative effort associated with participating in research studies, SMO has been designed to limit participant burden to the extent possible. **It should take about 30 minutes to complete the survey.**

To avoid redundant information requests, the survey focuses only on questions that cannot be answered with administrative data you have already reported to your State agency on CN program participation. The study team will receive those data from your State agency.

All information collected for this study is for research purposes only and will be kept private to the full extent allowed by law. Personally identifiable information (PII) will not be used to retrieve survey records or data.

We thank you in advance for your time and cooperation in this important study. If you have any questions about the study or about completing this survey, please email SMOStudy@mathematica-mpr.com or call Mathematica toll-free at 833-440-9475.

The Food and Nutrition Service (FNS) is collecting this information to understand how State agencies and school food authorities operated CN Programs in SY 2022-2023 and to satisfy the State agencies' congressionally mandated reporting requirements for the COVID-19 nationwide waivers pursuant to section 2202 of the Families First Coronavirus Response Act (P.L. 116-127). This is a mandatory collection for State agencies and SFAs. FNS will use the information to assess how the waivers improved services to children and to inform FNS's planning, policy, and guidance related to state and local meal service operations. Because the personally identifiable information (PII) requested under this collection will not be used to retrieve survey records or data, requirements of the Privacy Act of 1974 do not apply. Responses will be kept private to the extent provided by law and FNS regulations. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0607. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314, ATTN: PRA (0584-0607). Do not return the completed form to this address.

Instructions for Completing the Survey

- You may use [this link](#) to view a PDF version of the full data collection instrument. Note that this does not include the display logic so you may see questions that do not apply to your school food authority. This is available for informational purposes only; you will need to enter your responses in the web survey.
- If you need a colleague to complete a section of the survey, you should forward them the email with the link to the survey. They do not need a separate link.
- **Avoid having multiple people logged into the survey at once.** Responses may not be recorded correctly if multiple users are logged into the survey at the same time.
- If you or a colleague are returning to finish your saved survey, the program will return to the point where you left off.
- This survey has been optimized to run on a desktop computer and is best viewed in the latest versions of Chrome, Firefox, or Microsoft Edge.
- Click the **"Next"** button to progress in the survey. You must click this button to save your responses. **If you cannot complete the survey in one sitting, click the "Next" button before you close your browser.** Your answers will be saved.
- Click the **"Back"** button to go to the previous question.
- **Use the buttons and links within the survey.** Using your browser's "Back" function may cause errors.
- Definitions for key terms are provided in the **glossary** located on the "Help" page. As you complete the survey, you may return to this page at any point via the "Help" link in the lower left corner of the window.
- If you have any questions about the study or about completing this survey, please email SMOStudy@mathematica-mpr.com or call Mathematica toll-free at 833-440-9475.

Glossary

Buy American provision: School food authorities (SFAs) in the continental United States are required to purchase, to the maximum extent practical, domestic commodities or products. A domestic commodity or product is defined as an agricultural commodity that is produced in the United States and a food product that is processed in the United States substantially using agricultural commodities produced in the United States and territories.

Elementary Schools: Schools with students in any span of grades from prekindergarten through grade 6.

Middle Schools: Schools with students in any span of grades from 6 through 9.

High Schools: Schools with students in any span of grades from 9 through 12.

Other schools: Schools that do not meet the elementary, middle, or high school definitions, such as 6-12, K-8, or K-12/K-13.

Keep Kids Fed Act (KKFA) of 2022: Provided funding for and made changes to school meal programs and the Child and Adult Care Food Program (CACFP). For the school year beginning in July 2022, the bill increased the reimbursement rate for school lunches by 40 cents and for school breakfasts by 15 cents, and the bill increased the reimbursement rate for meals and snacks under the CACFP by 10 cents.

Paid Lunch Equity provision: SFAs participating in the National School Lunch Program (NSLP) with a negative balance in the nonprofit school food service account are required to increase the prices charged for paid meals until their weighted average lunch prices meet the difference between Federal reimbursements for free and paid lunches.

School food authority (SFA): The governing body that has the legal authority to operate a lunch or breakfast program in one or more public or private schools.

Scratch-based food preparation: Produces meal components from whole or minimally processed basic ingredients, often using a recipe.

Speed-scratch food preparation: Produces meal components using some processed ingredients in an otherwise scratch-based food preparation, such as premade pizza dough, shredded cheese, canned pizza sauce, and pre-cut vegetables.

The following are school levels that your SFA might have:

- Elementary schools with students in any span of grades from prekindergarten through grade 6
- Middle or junior high schools with students in any span of grades from 6 through 9
- High schools with students in any span of grades from 9 through 12
- Other schools that do not meet the elementary, middle, or high school definitions, such as 6–12, K–8, or K–12/K–13

Does your SFA have elementary, middle, high, or other schools?

B. STATE-PROVIDED UNIVERSAL FREE MEALS

The next few questions are about State-provided universal free meals. Some States recently enacted legislation which requires school breakfasts and lunches to be provided at no cost to all children in the State.

Did your SFA elect or continue operating any of the following provisions in SY 2022-2023?

- Community Eligibility Provision (CEP)
- Provision 2 or 3
- None
- Don't know

<< BACK

NEXT >>

Was the decision to elect or continue operating CEP made as a result of your new State legislation?

- Yes, elected CEP as a result of new State legislation
- Yes, continued to operate CEP as a result of new State legislation
- No, new State legislation had no impact on decision to operate CEP
- Don't know

<< BACK

NEXT >>

Was the decision to elect or continue operating Provision 2 or 3 made as a result of your new State legislation?

- Yes, elected Provision 2 or 3 as a result of new State legislation
- Yes, continued to operate Provision 2 or 3 as a result of new State legislation
- No, new State legislation had no impact on decision to operate Provision 2 or 3
- Don't know

<< BACK

Do *all* schools in your SFA serve *all* school meals at no charge to students?

Yes

No

<< BACK

NEXT >>

For these questions, please record your responses separately by school level.

- Elementary schools are schools with students in any span of grades from prekindergarten through grade 6.
- Middle schools are schools with students in any span of grades from 6 through 9.
- High schools are schools with students in any span of grades from 9 through 12.
- Other schools are schools that do not meet the elementary, middle or junior high, or high school definitions, such as 6-12, K-8, or K-12/K-13.

The next questions are about the Paid Lunch Equity provision.

The Paid Lunch Equity rule requires SFAs participating in the NSLP to provide the same level of financial support for lunches served to students who are not eligible for free or reduced price lunches as is provided for lunches served to students eligible for free lunches. SFAs participating in the NSLP with a negative balance in the nonprofit school food service account are required to increase the prices charged for paid meals until their weighted average lunch prices meet the difference between Federal reimbursements for free and paid lunches.

FNS recognizes that during SY 2022-2023, requiring SFAs to increase their paid meal prices could place a burden upon families who have not paid for meals over the last two school years. FNS offered States a waiver to allow SFAs flexibility in meeting the Paid Lunch Equity requirements in SY 2022-2023. Your State may have elected to use this waiver.

During SY 2022-2023, what actions did your SFA take *in response to the Paid Lunch Equity provision* in the Healthy, Hunger-Free Kids Act of 2010?

Select all that apply

- Increased paid lunch prices in all schools
- Increased paid lunch prices in some schools
- Added funds from non-Federal sources to the nonprofit school food services account
- Used the Paid Lunch Equity **waiver** for SY 2022-2023
- No action taken – Paid lunch pricing already complied with provision
- No action taken – Operating balance was positive
- Other (Specify)
- Don't know

In SY 2022-2023, did your SFA lower prices for paid meals in any schools compared to prices charged prior to the COVID-19 pandemic (in SY 2019-2020)?

- Slightly improved finances
- Moderately improved finances
- Substantially improved finances
- Don't know

<< BACK

To assist school districts experiencing supply chain disruptions, FNS allocated relief funding to State agencies called Supply Chain Assistance Funds. State agencies distributed Supply Chain Assistance funds to eligible SFAs to be used exclusively to procure unprocessed or minimally processed domestic food products or commodities. The funds were to help SFAs deal with challenges such as unanticipated cancellation of food and supply contracts, reduced availability of certain foods, unexpected substitution of certain products, unpredictable increases in food and supply prices, or other obstacles related to pricing and/or availability.

Did your SFA receive Supply Chain Assistance Funds in SY 2022-2023?

- Yes
- No
- Don't know

<< BACK

FNS provides Equipment Assistance Grants to State agencies on an annual basis, which they can award competitively to eligible SFAs. In Fiscal Year (FY) 2022, FNS provided additional Equipment Assistance Grant funds in recognition of supply chain challenges.

Did your SFA receive any Equipment Assistance Grants in SY 2022-2023?

- Yes
- No
- Don't know

<< BACK

NEXT >>

Did the equipment procured using the Equipment Assistance Grants allow your SFA to replace equipment, increase capacity, or acquire new equipment?

Select all that apply

- Replace aging or broken equipment
- Increase capacity (for example, buying an additional freezer)
- Acquire new equipment, neither replacing nor increasing capacity (for example, buying a pizza oven when SFA did not previously have one)
- Don't know

What types of equipment did your SFA procure using the Equipment Assistance Grants?

Select all that apply

- Cart
- Cold food table (for example, serving bar or sandwich prep table)
- Countertop equipment (for example, griddle, microwave, or blender)
- Food mixer
- Ice machine
- Range or oven
- Work table
- Dishwasher – sink or supplies
- Food warmer
- Freezer
- Holding and proofing cabinet
- Processing/packaging (for example, dough press or shrink wrap machine)
- Refrigerator
- Steam table
- Transportation (for example, food transport van or lift gate)
- Farm to School or school garden supplies
- Service (for example, point of service hardware or electronic menu boards)
- Other: *(Specify)*
- Don't know

<< BACK

NEXT >>

The next set of questions is about your SFA's approach to unpaid meal charges that occur when students who are not eligible for free meals do not have funds to pay for meals. Questions pertain to SY 2022-2023 unless otherwise specified.

Does your SFA have a local unpaid meal charge policy, or did your State develop a State-level unpaid meal charge policy for all SFAs to follow?

- Local unpaid meal charge policy
- State-level unpaid meal charge policy
- Does not apply – all schools in my SFA serve meals at no charge
- Don't know

<< BACK

NEXT >>

What are the components of the meal charge policy used by your SFA?

Select all that apply

- Students unable to pay receive and are charged for regular, reimbursable meals (breakfast, lunch, and/or afterschool snacks)
- Households are encouraged to apply for free or reduced price school meals when their student is unable to pay
- Households are notified of low or negative balances (for example, phone calls, text messages, and/or notes sent home)
- Students unable to pay receive and are charged for an alternate meal
- Outside funding sources (for example, community donations) are provided to pay for meals or debt when students incur meal charges
- Students unable to pay receive an alternate meal at no cost
- Students unable to pay are denied a meal
- Students unable to pay have a limit on the number of meals they can receive and be charged for

F. PROCUREMENT AND BUY AMERICAN

This section asks about practices related to domestic commodities and products and local food procurement. Please respond for SY 2022-2023 unless otherwise specified.

The Buy American provision requires SFAs to procure, to the maximum extent practicable, domestic commodities or products. A domestic commodity or product is defined as an agricultural commodity that is produced in the United States and a food product that is processed in the United States substantially using agricultural commodities produced in the United States and territories.

How does your SFA ensure contractor compliance with the Buy American provision?

Select all that apply

- By monitoring solicitation language
- By monitoring contract language
- By verifying with the vendor that the domestic commodity or product that was solicited for and awarded is in fact the food received
- By reviewing delivery invoices or receipts
- By reviewing product labels or product codes
- By conducting reviews of storage facilities

SFAs may use exceptions to the Buy American provision when the use of domestic commodities or products is not practical. That is, domestic commodities or products are in inadequate supply, low quality, or significantly higher in cost than non-domestic commodities or products.

For example, an SFA may use a threshold of 5%, meaning that an exception to the Buy American provision is warranted if the cost of a domestic commodity or product is at least 5% more than the cost of a non-domestic commodity or product.

Does your SFA use one or more thresholds to determine that a cost is significantly higher for a domestic commodity or product and thus warrants an exception?

- Yes, use one threshold for all domestic commodities or products
- Yes, use different thresholds for different domestic commodities or products
- No, do not use any thresholds for any domestic commodities or products
- Not applicable – all of our procurements conform to Buy American
- Don't know
