

extensive information exchanges with NMFS, Dominion Energy submitted a revised application on August 9, 2022 that we determined was adequate and complete on August 12, 2022. Dominion Energy requested the regulations and subsequent 5-year Letter of Authorization (LOA) be valid from March 4, 2024 through March 3, 2029.

Dominion Energy plans to conduct the following activities associated with the wind farm construction: vibratory and impact installation of wind turbine generators (WTG) monopiles foundations and offshore substation (OSS) jacket foundations; temporary use of goal posts to guide installation activities during the trenchless installation by impact pile driving; vibratory installation and removal of temporary cofferdams using sheet piles at the sea-to-shore transitions; site characterization surveys using a range of frequencies; placement of scour protection; and export cable trenching, laying, and burial. Vessels will be used to transport crew, supplies, and materials to the project area and to support pile installation. A subset of these activities (*i.e.*, installing piles using impact and vibratory pile driving; site characterization surveys) may result in the take, by Level A harassment and Level B harassment, of marine mammals. Therefore, Dominion Energy requests authorization to incidentally take marine mammals.

Specified Activities

In Executive Order 14008, President Biden stated that it is the policy of the United States to organize and deploy the full capacity of its agencies to combat the climate crisis to implement a Government-wide approach that reduces climate pollution in every sector of its economy; increases resilience to the impacts of climate change; protects public health; conserves our lands, water, and biodiversity; delivers environmental justice; and spurs well-paying union jobs and economic growth, especially through innovation, commercialization, and deployment of clean energy technologies and infrastructure.

Furthermore, this project would directly support the goals of the Virginia Clean Economy Act passed by the Virginia General Assembly in 2020, which supports the development of clean and reliable offshore wind energy to be developed by 2028 and consist of approximately 2,500 to 3,000 MW of energy.

Through a competitive leasing process under 30 CFR 585.211, Dominion Energy was awarded Commercial Lease OCS-A 0483 offshore of Virginia and

the exclusive right to submit a construction and operations plan (COP) for activities within the lease area. Dominion Energy submitted a COP to BOEM proposing the construction, operation, maintenance, and conceptual decommissioning of the CVOW-C project, a 2,500 to 3,000 megawatt (MW) commercial-scale offshore wind energy facility with a Lease Area covering approximately 112,799 acres (456.48 km²) and located 27 nautical miles (50 km) off of the coastline of Virginia Beach. Per the ITA application, CVOW-C would consist of up to 205 WTGs with associated monopile foundations, up to three OSSs with associated jacket foundations, and one transmission cable-to-shore.

Dominion Energy anticipates that activities potentially resulting in the take of marine mammals could occur for the life of the requested 5-year Incidental Take Regulation (ITR) and associated Letter of Authorization (LOA). This includes:

- Several construction-related high-resolution site assessment geophysical surveys using acoustic sources <180 kilohertz (kHz) for up to 1,108 days during all 5 years (with varying effort based on survey year);
- The installation of up to 205 WTGs monopile foundations; each foundation would be a tapered (*i.e.*, one end has a larger diameter than the other end) 7.5/9.5-meter (m) pile by vibratory and impact pile driving;
- The installation of up to three OSSs jacket foundations using four pin piles (2.8-m) each by vibratory and impact pile driving;
- The installation and removal of up to nine temporary cofferdams using steel sheet piles by vibratory pile driving at the offshore nearshore trenchless installation punch-out for the burial of the direct pipe west of the firing range at the State Military Reservation in Virginia Beach; and,
- The installation of temporary goal posts (*i.e.*, a steel support structure to support the direct pipe installation).

We note that Dominion Energy is not requesting take incidental to the detonation of munitions and explosives of concern or unexploded ordnances (MEC/UXOs) during the effective period of the regulation.

Information Sought

Interested persons may submit information, suggestions, and comments concerning the Dominion Energy's request (see ADDRESSES). NMFS will consider all information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental

taking of marine mammals by Dominion Energy, if appropriate.

Dated: September 12, 2022.

Kimberly Damon-Randall,
Director, Office of Protected Resources,
National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Paperwork Submissions Under the Coastal Zone Management Act Federal Consistency Requirements

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 14, 2022.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0411 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to David Kaiser, Senior Policy Analyst, Office for Coastal Management, National Ocean Service, 246 Gregg Hall, 35 Colovos Road, Durham, NH 03824-3534, 603-862-2719 or David.Kaiser@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This notice and request for public comment is for a request to extend a

currently approved information collection made by the Office for Coastal Management within the National Ocean Service of the National Oceanic and Atmospheric Administration pursuant to the requirements of Section 307 of the Coastal Zone Management Act (16 U.S.C. 1456) and its implementing regulations at 15 CFR part 930. Information collected pursuant to these requirements is used by states to determine the consistency of proposed federal actions with the enforceable policies of State coastal management programs (CMPs), and by NOAA when deciding appeals to State objections in the exercise of the review authority that the CZMA provides.

The Coastal Zone Management Act (CZMA) creates a State-federal partnership to improve the management of the nation's coastal zone through the development of federally approved State CMPs. The CZMA provides two incentives for States to develop federally approved CMPs: (1) the National Oceanic and Atmospheric Administration (NOAA) has appropriated monies to grant to States to develop and implement State CMPs that meet statutory and regulatory criteria; and (2) the CZMA requires federal agencies, non-federal licensees, and State and local government recipients of federal assistance to conduct their activities in a manner "consistent" with the enforceable policies of NOAA-approved CMPs. The latter incentive, referred to as the "federal consistency" provision, is found at 16 U.S.C. 1456. NOAA's regulations at 15 CFR part 930 implement NOAA's responsibilities to provide procedures for the consistency provision, the procedures available for an appeal of a State's objection to a consistency certification as provided for in 16 U.S.C. 1456(c)(3)(A) and (B) and 1456(d), and changes in the appeal process created by Congressional amendments in 1990, 1996 and 2005, and found at 16 U.S.C. 1465.

Paperwork and information collection routinely occurs by State CMPs pursuant to the CZMA federal consistency review requirements. Federal agencies proposing an action that may have reasonably foreseeable effects to coastal uses or resources must provide a consistency determination to affected states. The information requirements for consistency determinations are specified at 15 CFR 930.39. Non-federal applicants for federal licenses, permits and other forms of authorization that are listed by state CMPs as subject to review, must submit a statement certifying the consistency of the proposed activity to state CMPs pursuant to 15 CFR 930.57

accompanied by the necessary data and information specified at 15 CFR 930.58. Necessary data and information includes a copy of the application for the Federal license or permit; all material relevant to the State CMP provided to the Federal agency in support of the license or permit request; a detailed description of the proposed activity, its associated facilities and coastal effects; information specifically identified in the State CMP; and an evaluation that includes findings relating to the coastal effects of the proposal and its associated facilities to the relevant enforceable policies of the State CMP. For State and local agency applicants for federal financial assistance, the application shall be forwarded to the State CMP through the intergovernmental review process established pursuant to E.O. 12372, or submitted directly to the State CMP if the federal financial assistance is listed in the State CMP as subject to review. See 15 CFR 930.94.

Information is provided to NOAA only when there is a State objection to a proposed federal license or permit, or federal financial assistance; when informal mediation is sought by a Federal agency or State; or when an applicant for a federal license or permit, or federal financial assistance appeals to the Secretary of Commerce for an override to a State CMP objection to the issuance of the authorization, or award of assistance. Last, in 1990, Congress required State CMPs to provide for public participation in their permitting processes, consistency determinations and similar decisions. See 16 U.S.C. 1455(d)(14). How the public participation requirement is met is determined by each state with NOAA approval of the participation process.

These submissions are intended to provide a reasonable, efficient, and predictable means of complying with CZMA requirements. The information will be used by coastal states with federally-approved Coastal Zone Management Programs to determine if Federal agency activities, Federal license or permit activities, and Federal assistance activities that affect a state's coastal zone are consistent with the state's coastal management program.

Information developed for and during state reviews will also be collected and considered by NOAA for appeals filed by non-federal applicants seeking an override of state CZMA objections to federal license or permit activities or Federal assistance activities.

There have been no changes to the information collection requirements, their applicability or the methods of

collection since the previous Paperwork Reduction Act extension.

II. Method of Collection

Information is submitted pursuant to the procedural requirements of the CZMA and its implementing federal consistency regulations. Required information is case-specific and not submitted by form. Methods of submittal include email and mail.

III. Data

OMB Control Number: 0648-0411.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: State, Local, or tribal government; Federal government; business or other for-profit organizations; individuals or households.

Estimated Number of Respondents: 2,334.

Estimated Time per Response: Applications, certifications, and state objection or concurrence letters, 8 hours each; state requests for review of unlisted activities, 4 hours; public notices, 1 hour; interstate listing notices, 30 hours; mediation, 2 hours; appeals to the Secretary of Commerce, 210 hours.

Estimated Total Annual Burden Hours: 35,799.

Estimated Total Annual Cost to Public: \$37 in recordkeeping and reporting costs.

Respondent's Obligation: Required for the issuance of a federal license or permit, and award of federal financial assistance.

Legal Authority: 16 U.S.C. 1456.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number,

email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–08–P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Research and Engineering, Department of Defense (DoD).

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Defense Science Board (DSB) will take place.

DATES: Closed to the public Wednesday, September 14, 2022 from 8 a.m. to 5 p.m. Closed to the public Thursday, September 15, 2022 from 8 a.m. to 4 p.m. Closed to the public Friday, September 16, 2022 from 10 a.m. to 4:15 p.m.

ADDRESSES: The address of the closed meeting is the Executive Conference Center, 4075 Wilson Blvd., Floor 3, Arlington, VA 22203 on September 14–15, 2022 and 3140 Defense Pentagon, Room 2A528 on September 16, 2022.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin Doxey, (703) 571–0081 (Voice), (703) 697–1860 (Facsimile), kevin.a.doxey.civ@mail.mil (Email). Mailing address is Defense Science Board, 3140 Defense Pentagon, Room 2A528, Washington, DC 20301–3140. Website: <http://www.acq.osd.mil/dsb/>. The most up-to-date changes to the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) (title 5 United States Code (U.S.C.), appendix), the Government in the Sunshine Act (title 5 U.S.C., section 552b), and title 41 Code

of Federal Regulations (CFR), sections 102–3.140 and 102–3.150.

Due to circumstances beyond the control of the Designated Federal Officer, the Defense Science Board was unable to provide public notification required by 41 CFR 102–3.150(a) concerning its September 14–16, 2022 meeting. Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102–3.150(b), waives the 15-calendar day notification requirement.

Purpose of the Meeting: The mission of the DSB is to provide independent advice and recommendations on matters relating to the DoD's scientific and technical enterprise. The objective of the meeting is to obtain, review, and evaluate classified information related to the DSB's mission. DSB membership will meet to discuss the 2022 DSB Summer Study on Technology Superiority ("the Summer Study").

Agenda: The DSB meeting on the Summer Study will begin on September 14, 2022 at 8 a.m. with administrative opening remarks from Mr. Kevin Doxey, the Executive Director and Designated Federal Officer, and a classified overview of the objectives of the Summer Study from Dr. Eric Evans, the DSB Chair. Next, the DSB members will meet in a plenary session to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States. Following a break, the DSB members will continue to meet to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States. Following a break, the DSB members will continue their discussion in breakout groups. The meeting will adjourn at 5 p.m. On September 15, 2022, beginning at 8 a.m., the DSB members will again meet to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States. Following a break, the DSB members will meet in a plenary session to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States. Following a break, the DSB members will continue to meet in a plenary session to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States, will continue this discussion in breakout groups, and finally will meet in plenary to continue to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United

States. The meeting will adjourn at 4 p.m. On September 16, 2022, beginning at 10 a.m., the DSB members will meet to discuss classified concepts, capabilities, and strategies that may enhance the military technological advantage of the United States. Following a break, the DSB members will meet with the Deputy Secretary of Defense, the Honorable Kathleen Hicks, to conduct a tabletop exercise in which members deliberate on and respond to various simulated and interactive scenarios. DSB members will provide findings and recommendations related to options for strategic, operational, and budgetary decisions that can be made to protect and strengthen DoD interests. The meeting will adjourn at 4:15 p.m.

Meeting Accessibility: In accordance with section 10(d) of the FACA and 41 CFR 102–3.155, the DoD has determined that the DSB meeting will be closed to the public. Specifically, the Under Secretary of Defense for Research and Engineering, in consultation with the DoD Office of the General Counsel, has determined in writing that the meeting will be closed to the public because it will consider matters covered by 5 U.S.C. 552b(c)(1). The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the Under Secretary of Defense for Research and Engineering.

Written Statements: In accordance with section 10(a)(3) of the FACA and 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the DSB at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB DFO provided in the **FOR FURTHER INFORMATION CONTACT** section at any point; however, if a written statement is not received at least three calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the DSB until a later date.
