

How to Enter Volume and Value Data Using the eFISH Portal

Two Volume and Value reports are included as components of the cost recovery programs for the Amendment 80 Program and the Western Alaska Community Development Quota Program (CDQ Program). They are:

- the First Wholesale Volume and Value Report, and
- the Pacific Cod Ex-Vessel Volume and Value Report.

These reports are used to estimate the ex-vessel value of groundfish species subject to cost recovery in the Amendment 80 and CDQ Programs. NMFS will use the estimated ex-vessel value for each groundfish species to develop standard prices. Standard prices are then used to calculate the cost recovery fee liability for participants in the Amendment 80 Program and CDQ Program.

The First Wholesale Volume and Value Report must be completed by Amendment 80 vessel owners whose vessels harvest groundfish species, other than Pacific cod, with trawl gear under the Amendment 80 and CDQ programs. Individual reports must be completed for each Amendment 80 vessel that participated in the Amendment 80 or CDQ Program groundfish fisheries during that year (i.e., for persons who own multiple catcher/processors, a separate report must be completed for each vessel).

The Pacific Cod Ex-Vessel Volume and Value Report must be completed by shoreside processors and motherships that receive deliveries of unprocessed Pacific cod harvested from the Bering Sea and Aleutian Islands (BSAI). Pacific cod caught with trawl and fixed gear in the BSAI for which an ex-vessel price was paid to a harvesting vessel must be reported. Individual reports must be completed for each mothership or shoreside facility (i.e., for persons who own multiple motherships and/or shoreside processing facilities, a separate report must be completed for each).

Volume and Value Reports are due to NMFS by November 10 of the year in which the landings were made. Volume and Value Reports must be submitted using an online system called eFISH. For more information about how to log into eFISH go here: [eFISH Web Application](#). To access eFISH, users will need the following:

- NMFS ID number and password. The NMFS ID is a unique number assigned to a person(s)/company that applies for federal permits through the Restricted Access Management (RAM) Division;
- the Federal Fisheries Permit (FFP) or Federal Processing Permit (FPP) number for the catcher/processor, mothership, or shoreside processor for which you are submitting a volume and value report.

1. Go to: <https://alaskafisheries.noaa.gov/webapps/efish/login>

Program Participant Login

If you are logging in for the first time, you will be prompted to change your password to activate your account. You will not be able to activate your account unless your current e-mail address is on file with NMFS.

[Forgot your password?](#) OR [Activate an Account](#). Updates to contact information may be made under Account after login. Please contact NMFS, Alaska Region, Restricted Access Management Program for your eFISH user_id.

SYSTEM REQUIREMENTS: This site requires Internet Explorer version 9 or above. You can also use [Chrome](#), [FireFox](#) or another major browser.

NOTE: This site allows access to the online format for [Office of Management and Budget \(OMB\) approved forms](#).

[Privacy Act Statement](#)

- Check the Acknowledge and Accept checkbox
- Enter your *NMFS ID*
- Enter your *Password*
- Click on the *Login* button

2. Depending on your eFISH configuration, the default menu can vary. For some, it will open on the *Groundfish* tab. If it does not open on the *Groundfish* tab, click on the *Groundfish* tab to access all the Volume and Value options.

The screenshot displays the eFISH web application interface. At the top, there is a navigation bar with links for 'Contacts', 'NOAA Site Navigation', 'Account', 'Help', and 'Logout'. Below this is the 'ACCOUNT DETAILS' section, which contains several tabs: 'IFQ', 'Crab Rationalization', 'Groundfish', 'Processor', and 'Payments'. A red arrow points to the 'Groundfish' tab, indicating it is the selected option. The main content area is divided into two sections: 'Registered Buyer Resources' and 'Vessel Balance'. The 'Registered Buyer Resources' section includes links for 'Report a Landing', 'Buyer Landing Ledger', 'Reprint Receipt', 'Renew Buyer Permit', and 'Annual Report', each with a brief description of its function. The 'Vessel Balance' section includes a link for 'Vessel Balances' and a description of the information it displays. At the bottom of the page, there is a note stating: 'NOTE: This site allows access to the online format for [Office of Management and Budget \(OMB\) approved forms](#).' Below the note is a footer bar with a home icon and a printer icon.

Pacific cod Ex-Vessel Volume and Value Report

The Pacific cod Ex-Vessel Volume and Value Report collects information on Pacific cod caught with trawl and fixed gear in the BSAI and landed between January 1 and October 31 of each year. Values should be reported separately for fixed gear and trawl gear.

PACIFIC COD VOLUME AND VALUE

Pacific Cod Volume and Value

NMFS Id: Date: 08/17/2018

Each shoreside processor or mothership that purchased fixed gear or trawl gear deliveries of unprocessed Pacific cod harvested from the federal waters of the BSAI is required to submit this report electronically to NMFS no later than **November 10** of the year in which the landings were made.

NOTE: If no ex-vessel sale occurred (e.g., if the processor accepted fish that only went to fishmeal production), do not include those pounds on this form.

Pounds Purchased (round weight): Enter the total weight in unprocessed pounds of BSAI Pacific cod that was purchased and landed at the shoreside processor or mothership during the period January 1 through October 31. This includes target and non-target Pacific cod that was sold.

Total Ex-Vessel Value Paid: Enter the total gross ex-vessel value, in U.S. dollars and cents, of Pacific cod that was purchased and landed during the period January 1 through October 31.

For reference, view reports of landed pounds purchased(in round weight) for which value information is requested:

Pacific Cod Volume and Value

Instructions on how to edit and submit report:

1. Select values from the drop-down lists for the year and permit number. Any previously entered values will be displayed in the form below. Form values can be refreshed at any time by using the refresh icon .
2. Enter the volume and value information for each species and gear type as indicated. **For any species that you did not harvest, leave the row blank.**
3. After entering all volume and value information for the selected permit and gear type, click on 'Submit Update' to send the data to NMFS. By clicking on submit, you are certifying that all information is true, correct, and complete to the best of your knowledge and belief. You will have an opportunity to make changes **until November 10th** of this year.
4. If an item was entered in error, you may clear out the existing values (leaving the row blank), then click on 'Submit Update' to remove the entries.
5. Click on the export icon to see all volume and value report data submitted to NMFS for all permits and gear type. All values for the selected year will be exported.

- Instructions on how to edit and submit volume and value data can be accessed at any time by clicking on the *help icon*:

- The help dialog box can be closed by clicking on

PACIFIC COD VOLUME AND VALUE

Pacific Cod Volume and Value

NMFS Id: **Date:** 08/17/2018

Each shoreside processor or mothership that purchased fixed gear or trawl gear deliveries of unprocessed Pacific cod harvested from the federal waters of the BSAI is required to submit this report electronically to NMFS no later than **November 10** of the year in which the landings were made.

NOTE: If no ex-vessel sale occurred (e.g., if the processor accepted fish that only went to fishmeal production), do not include those pounds on this form.

Pounds Purchased (round weight): Enter the total weight in unprocessed pounds of BSAI Pacific cod that was purchased and landed at the shoreside processor or mothership during the period January 1 through October 31. This includes target and non-target Pacific cod that was sold.

Total Ex-Vessel Value Paid: Enter the total gross ex-vessel value, in U.S. dollars and cents, of Pacific cod that was purchased and landed during the period January 1 through October 31.

For reference, view reports of landed pounds purchased(in round weight) for which value information is requested:

[Summary](#) [Detail](#)

Report: 2018 FFP/FPP

Deliveries by Gear Type	Pounds Purchased(round weight) (January-October)	Total Ex-vessel Value Paid (\$) (January-October)
Trawl Gear Pacific Cod Deliveries	<input type="text"/>	<input type="text"/>
Fixed Gear Pacific Cod Deliveries	<input type="text"/>	<input type="text"/>
Subtotal	<input type="text"/>	<input type="text"/>

- Summary and detail reports are provided for reference. They contain the landed pounds (in round weight) of BSAI Pacific cod for which ex-vessel value information is requested based on each shoreside processor or mothership's landing reports. If there is more than one shoreside processor facility or mothership associated with your NMFS ID, the report will include the landed pounds for each.
 - Click on *Summary* for a .csv file containing the landed pounds in round weight by shoreside processor or mothership and gear type. The summary includes catch landed between January 1 and October 31, but excludes state managed Pacific cod, custom processed catch, and Pacific cod processed into fish meal.
 - Click on *Detail* for a .csv file containing landed pounds in round weight at the itemized catch level. The records reflect purchased catch of Pacific cod from mothership or shoreside deliveries from January 1 through October 31, but exclude state managed Pacific cod, custom processed catch, and Pacific cod processed into fish meal. The detail records constitute the summary data.
 - Please note, because of the conversion from pounds to metric tons in the NMFS database, and then from metric tons back to pounds for this report, there may be one pound rounding discrepancies for some records.
