

appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in webinar are as follows:

Participants will discuss modeling approaches for use in the assessment of Gulf of Mexico red snapper.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 1, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Marine Planning Committee (MPC) will hold an online public meeting.

DATES: The online meeting will be held Thursday, February 23, 2023, from 10 a.m. to 4 p.m. Pacific Time or until business for the day has been completed.

ADDRESSES: This meeting will be held online. Specific meeting information, including a proposed agenda and directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Staff Officer, Pacific Council; *telephone:* (503) 820-2409.

SUPPLEMENTARY INFORMATION: The purpose of this online meeting is for the MPC to consider current offshore wind (OSW) energy and aquaculture issues and to provide information and advice to the Pacific Council for consideration at its April 2023 meeting. Topics will include updates on spatial suitability modeling to support identification of Wind Energy Areas off the Oregon Coast, and other OSW energy planning and development on the West Coast. Other relevant topics may be addressed as appropriate.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery

Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 2, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Designation of Fishery Management Council Members and Application for Reinstatement of State Authority

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 7, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Designation of Fishery Management Council Members and Application for Reinstatement of State Authority.

OMB Control Number: 0648-0314.

Form Number(s): None.

Type of Request: Regular (extension of a current information collection).

Number of Respondents: 275.

Average Hours per Response: 80 hours for a nomination for Council appointment; 16 hours for background

documentation for nominees; 1 hour to designate a principal state fishery official(s) or for a request to reinstate authority.

Total Annual Burden Hours: 4,607.

Needs and Uses: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the establishment of eight Regional Fishery Management Councils to manage fisheries within regional jurisdictions. This collection pertains to several sections of the Magnuson-Stevens Act related to the Councils. Section 302(b) provides for appointment of Council members nominated by State Governors, Territorial Governors, or Tribal Governments and for designation of a principal state fishery official for the purposes of the Magnuson-Stevens Act. Section 306(b)(2) provides for a request by a state for reinstatement of state authority over a managed fishery. Nominees for Council membership must provide their State Governor, Territorial Governor, or Tribal Government leadership with background documentation, which is then submitted to NOAA, on behalf of the Secretary of Commerce to review qualifications for Council membership. The information collected with these actions is used to ensure that the requirements of the Magnuson-Stevens Act are being met in regard to Council membership and state authority.

Affected Public: State, local, or Tribal government.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Act section 302(b), section 306(b)(2), and 50 CFR 600.215.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0314.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Highly Migratory Species Vessel Logbooks and Cost-Earnings Data Reports

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 19, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Highly Migratory Species (HMS) Vessel Logbooks and Cost-Earnings Data Reports.

OMB Control Number: 0648–0371.

Form Number(s): 88–191.

Type of Request: Regular.

Number of Respondents: 5,642.

Average Hours per Response: 30 minutes for cost/earnings summaries attached to logbook reports, 30 minutes for annual expenditure forms, 12 minutes for logbook catch trip and set reports, 2 minutes for negative logbook catch reports.

Burden Hours: 21,710.

Needs and Uses: NMFS collects information via vessel logbooks to monitor the U.S. catch of Atlantic swordfish, sharks, billfish, and tunas in relation to the quotas, thereby ensuring that the United States complies with its domestic and international obligations. The HMS logbook program, OMB Control No. 0648–0371, was specifically designed to collect the vessel level information needed for the management of Atlantic HMS, and includes set forms, trip forms, negative reports, and cost-earning requirements for both commercial and recreational vessels. The information supplied through the HMS logbook program provides the catch and effort data on a per-set or per-trip level of resolution for both directed

and incidental species. In addition to HMS fisheries, the HMS logbook program is also used to report catches of dolphin and wahoo by commercial and charter/headboat fisheries by vessels that do not possess other federal permits. Additionally, the HMS logbook collects data on incidental species, including sea turtles, which is necessary to evaluate the fisheries in terms of bycatch and encounters with protected species. While most HMS fishermen use the HMS logbook program, HMS can also be reported as part of several other logbook collections including the Northeast Region Fishing Vessel Trip Reports (0648–0212) and Southeast Region Coastal Logbook (0648–0016).

These data are necessary to assess the status of HMS, dolphin, and wahoo in each fishery. International stock assessments for tunas, swordfish, billfish, and some species of sharks are conducted through ICCAT's Standing Committee on Research and Statistics periodically and provide, in part, the basis for ICCAT management recommendations which become binding on member nations. Domestic stock assessments for most species of sharks and for dolphin and wahoo are used as the basis of managing these species.

Supplementary information on fishing costs and earnings has been collected via the HMS logbook program. This economic information enables NMFS to assess the economic impacts of regulatory programs on small businesses and fishing communities, consistent with the National Environmental Policy Act (NEPA), Executive Order 12866, the Regulatory Flexibility Act, and other domestic laws.

Atlantic HMS fisheries are managed under the dual authority of the Magnuson-Stevens Fishery Conservation and Management Act (MSA) and the Atlantic Tunas Conservation Act (ATCA). Under the MSA, management measures must be consistent with ten National Standards, and fisheries must be managed to maintain optimum yield, rebuild overfished fisheries, and prevent overfishing. Under ATCA, the Secretary of Commerce shall promulgate regulations, as necessary and appropriate, to implement measures adopted by the International Commission for the Conservation of Atlantic Tunas (ICCAT).

Affected Public: Businesses or other for-profit organizations (vessel owners).

Frequency: Trip summary reports are submitted within 7 days following the completion of each fishing trip, trip cost-earnings reports are due within 30 days of trip completion, no catch/
