

Interest in Participating in an NCI-Sponsored Cancer Health Economics Research Collaborative Meeting

OMB No.: 0925-0766
Expiration Date: 04/30/2023

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0766). Do not return the completed form to this address.

Cancer has substantial economic consequences to patients and their families, health care systems, employers, and society overall. Multiple government agencies and non-profit organizations in the U.S. are involved in studying and addressing these economic consequences. Activities by these stakeholders include conducting and funding cancer health economics research; collecting data on the costs and financial impacts of cancer; developing, evaluating, and advocating for policies to address cancer-related costs and financial hardship; and communicating information on the economic burden of cancer.

NCI is considering holding a one-day meeting with representatives of other federal agencies and non-profit organizations interested in cancer health economics research. The goal of this meeting is to identify areas for potential collaboration (across the entire cancer control continuum, from prevention through survivorship) and develop plans to implement the collaborative activities identified. The meeting will be held in the fall of 2022 and would be hybrid (i.e., participants could participate in person or virtually).

The goal of this survey is to assess interest in participating in this one-day meeting and identify topics of greatest interest for the meeting. Please feel free to share this survey with others in your organization and provide responses that summarize interest among the relevant individuals. Please do not share this survey with individuals outside of your organization; we are interested in information from your organization specifically.

Overall, how interested would your organization be to participate in this Cancer Health Economics Research Collaborative Meeting?

- Very Interested
 - Somewhat Interested
 - Neutral
 - Not Very Interested
 - Not at All Interested
-

Several potential topics of discussion for the Cancer Health Economics Research Collaborative Meeting are listed below. Using the above scale of 1-5, where 1 is very interested and 5 is not at all interested, please indicate how interested your organization would be in discussing collaboration opportunities for each of the following topics. Please also add other topic ideas that you or your colleagues would like to discuss:

Cancer health economics data collection (rate each from 1=very interested to 5=not at all interested)

	1	2	3	4	5
Developing new surveys/data collection instruments	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Recruiting individuals to participate in studies of cancer costs/financial toxicity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Gathering data from new sources, such as social medial or consumer point-of-service expenditures	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Collecting economic data as part of or after (follow-up) clinical trials	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Collecting specific data to highlight health equity issues and cancer care costs/financial burden for underserved populations	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other topics related to data collection (please specify):

Cancer health economics data resources (rate each from 1=very interested to 5=not at all interested)

	1	2	3	4	5
Linking existing data resources to create new data resources	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Participating in a central "clearing house" with cancer-specific data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other topics related to data/data resources (please specify):

Cancer health economics training (rate each from 1=very interested to 5=not at all interested)

	1	2	3	4	5
Programs for residents, fellows, or other clinicians	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Programs for non-clinicians	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Development/funding of training fellowships	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other topics related to cancer health economics research training (please specify):

Communication/dissemination of cancer health economics research (rate each from 1=very interested to 5=not at all interested)

	1	2	3	4	5
Communicating research findings to policy makers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Training programs for communicating research findings to non-researcher audiences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Development of venues to share cancer health economics research findings with researchers and clinicians	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Development of platforms to share cancer health economics research findings with non-researchers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other topics related to communication/dissemination of cancer health economics research (please specify):

Other topics related to cancer health economics research (please specify):
