

Stigma Survey

OMB Control Number: 0925-0766

Expiration Date: April 30, 2023

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.

OK

1. Did you apply for any stigma research grants from NIH or any other research funders after the training?

Yes

No

2. If yes, were you successful in securing funds?

Yes

No

Decision pending

3. Please share the title of the grant(s) and funder(s) that were successfully secured.

4. Did you form any new professional relationships or collaborations as a result of the training? New collaborations can be with other trainees, the stigma institute faculty, or individuals you sought out at least in part due to the training.

Yes

No

5. If yes, please describe briefly how these relationships have enhanced your career or professional development.

6. Were you able to apply what you learned in the training to your research?

Yes

No

7. If so, in what way?

8. Is there anything else about your post-training stigma research activities that you would like to share with us, the faculty and/or your fellow trainees?

9. Would you be interested in participating in any type of follow-on activity that would help to further your research?

Yes

No

10. What type of activity would be most useful? Examples could include a targeted training focused on specific disease areas or populations, an in-depth training on stigma research methods or other area of focus, or a platform for communication and collaboration amongst the trainees and faculty.
