

OMB# 0925-0766; Exp date 04/30/2023 Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate, or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, Maryland 20892- 7974, ATTN: PRA (0925-0766). Do not return the completed form to this address.

Survey to Inform NIMH Strategic Planning for the Division of Intramural Research Programs (IRP)

In 2022-2023, the Division of Intramural Research Programs (IRP) of the National Institute of Mental Health (NIMH) will be developing a strategic plan and vision for the next five years. In launching this process, we would like to collect input from IRP staff, trainees, and contractors. Please complete this survey by **[DATE]**.

With this brief, anonymous survey, we wish to collect your feedback about the NIMH IRP and its scientific research goals. If you prefer, you may also send comments directly to the Office of the Scientific Director (Jennifer.Mehren@nih.gov), with the subject line, "IRP Strategic Planning Feedback." A summary of all feedback will be shared with NIMH Staff, the NIMH Board of Scientific Counselors (BSC), and others involved in the strategic planning process. We appreciate you taking the time to help shape the NIMH IRP's strategic plan.

Survey Questions:

1. What type of position do you have in the NIMH IRP?
 - Principal Investigator
 - Staff Scientist/Staff Clinician
 - Clinical Staff
 - Scientific Support Staff
 - Fellow (Postdoc or Clinical)
 - Fellow (Predoc or Postbac)
 - Other (if checked, enter position type)

2. How long have you worked in the NIMH IRP?
 - ≤2 years
 - More than 2 years, ≤5 years
 - More than 5 years, ≤10 years
 - More than 10 years, ≤20 years
 - More than 20 years

3. What **scientific areas or goals** do you think are important for the IRP to focus on or begin to undertake in the next five years? Think outside of your own research area. What do you predict the major areas of progress in neuroscience, medicine and mental health will be, and how can the IRP fit in? [Limit to 250 words/1800 characters]

4. What do you perceive as the **major strengths** of the NIMH IRP (i.e., what aspects of the IRP should we be sure to retain?) Mark all that apply:
- Longitudinal research
 - Creating and sharing of national resources
 - High-risk/high-reward research
 - Clinical/Translational work, including developing novel therapeutics/interventions
 - Basic/Discovery research
 - Ease of collaborations
 - Fiscal Freedom (e.g., no need to apply for grants)
 - Excellent training environment
 - Research resources (e.g., core facilities)
 - Clinical Center resources
 - Other—please comment [Limit to 200 characters]
 - Other—please comment [Limit to 200 characters]
5. What do you see as the **major barriers or obstacles** to achieving our scientific goals in the IRP? Pick up to six:
- Administrative burden (travel, HR, other)
 - IT support
 - Clinical Protocol Review
 - Animal Protocol Review
 - NIMH IRP Lab/Branch Structure
 - Obstacles in collaborating with other scientists
 - Insufficient career development/training support
 - Insufficient Clinical Center resources
 - Insufficient resources in supporting diversity, equity, inclusion, and accessibility (DEIA)
 - Insufficient lab or clinical space
 - Other—please comment [Limit to 200 characters]
 - Other—please comment [Limit to 200 characters]

6. Please enter any additional comments you would like to make about where you think NIMH IRP research should be going in the next five years. [Limit to 250 words/1800 characters]
