

U.S. Coast Guard completed a withdrawal relinquishment to the BLM.

Recreation Management: The purpose for the action includes providing for recreation opportunities in a manner that is consistent with the ONA's designating language by exploring the establishment of a recreation management area, RMZs, and an area suitable for an Interpretive/Visitor Center.

ACEC: The purpose for the action includes determining whether special management attention provided under an ACEC designation is warranted for these areas in light of the congressional designation of the ONA.

Alternatives Including the Preferred Alternative

The BLM has analyzed three alternatives in detail, including the No Action Alternative (Alternative A) and two action alternatives (Alternatives B and C). Alternative A continues existing management in the planning area, as reflected in decisions from the 1995 Florida RMP. However, Alternative A does not reflect management direction in the CNRA and does not include decisions for all areas that are currently managed by the BLM. Under Alternative A, Lot 15 would remain designated as the Jupiter Inlet tract ACEC (51.1 acres) and Lots 15 and 20 would be available for conveyance under the Recreation and Public Purposes Act or available for cooperative management with other government and/or private organizations. Alternative B focuses on updating the management objective to include conservation and consideration of the seven core resources and values for which the ONA was designated. In addition, Alternative B would remove the ACEC designation from Lot 15, designate an SRMA and associated RMZs, allow lands acquired to be managed in the same way as adjacent lands, manage temporary land use authorizations, and disallow long-term leasing of the site. Alternative C would expand the Jupiter Inlet tract ACEC to 87.5 acres, limit temporary land use authorizations, and allow long-term leasing. Similar to Alternative B, Alternative C would also set a management objective to include conservation and consideration of the seven core resources and values for which the ONA was designated and designate an SRMA and associated RMZs. The BLM did not identify any additional alternatives needing consideration.

The State Director has identified Alternative B as the preferred alternative. Alternative B was found to best meet the State Director's planning

guidance and, therefore, was selected as the preferred alternative because it provides a balanced management approach that meets the intent of the CNRA by addressing public access, recreation, and visitor services, while providing equitable opportunities for the appropriate use of the ONA. In addition, an ACEC designation is not necessary or appropriate because management attention provided under the congressional designation is adequate to protect the resources and values.

ACECs

The preferred alternative would not propose the following potential ACECs for designation:

- the existing Jupiter Inlet tract ACEC in Lot 15 (51.1 acres)
- the expanded Jupiter Inlet tract ACEC to encompass Lots 15, 16, 17, and 19 (87.5 acres).

Schedule for the Decision-Making Process

The BLM will provide additional opportunities for public participation consistent with the NEPA and land use planning processes, including a 30-day public protest period and a 60-day Governor's consistency review on the Proposed RMP Amendment. The Proposed RMP Amendment and EA is anticipated to be available for public protest in March 2023 with an Approved RMP Amendment and Decision Record in June 2023.

See the **DATES** section for the dates and locations of scheduled meetings. The date(s) and location(s) of any additional meetings will be announced at least 15 days in advance through local news media, newspapers, social media channels, and the BLM website at: www.blm.gov/JupiterONA, and the ePlanning project page at <https://eplanning.blm.gov/eplanning-ui/project/2002316/510>.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Consultation will continue on an individual basis with interested Tribal Nations.

Bureau of Land Management

[L19900000.PO0000.LLHQ320.23X; OMB Control No. 1004–0194]

Agency Information Collection Activities; Surface Management Activities Under the General Mining Law

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before January 9, 2023.

ADDRESSES: Send your written comments on this information collection request (ICR) by mail to Darrin King, Information Collection Clearance Officer, U.S. Department of the Interior, Bureau of Land Management, Attention PRA Office, 440 W 200 S #500, Salt Lake City, UT 84101; or by email to BLM_HQ_PRA_Comments@blm.gov. Please reference Office of Management and Budget (OMB) Control Number 1004–0194 in the subject line of your comments. The electronic submission of comments is recommended.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Sabry Hanna by email at shanna@blm.gov, or by telephone at (501) 458–6644. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make

international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor, and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The control number enables the BLM to determine whether operators

and mining claimants are meeting their responsibility to prevent unnecessary or undue degradation while conducting exploration and mining activities on public lands under mining laws.
