Privacy Act Statement

The Foreign Language and Area Studies (FLAS) Fellowships program is authorized by 20 U.S.C. §1122(b) and provides allocations of academic year and summer fellowships to institutions of higher education or consortia of institutions of higher education to assist meritorious undergraduate and graduate students undergoing training in modern foreign languages and related area or international studies. This is a survey of FLAS fellows required by 20 U.S.C. §1121(d) which states "The Secretary shall assist grantees in developing a survey to administer to students who have completed programs under this subchapter to determine postgraduate employment, education, or training. All grantees, where applicable, shall administer such survey once every two years and report survey results to the Secretary." The purpose of the survey is to collect information about the postgraduate employment, education, or training of FLAS fellows, the global competencies (including language skills and area studies knowledge) acquired during their fellowship, and the extent to which receiving a FLAS fellowship may have contributed to the forementioned. Your responses will contribute to the design of improved Federal student assistance programs.

The identifiable information about fellows that have responded to the survey is covered by the SORN entitled "Title VI Foreign Language and Area Studies Fellowships (FLAS)" (18-12-01) (this SORN is accessible at the Department's webpage on Privacy Act System of Record Notice Issuances at: <https://www2.ed.gov/notices/ed-pia.html>). Such information may be disclosed without the consent of the fellow, on a case-by-case basis that meets the requirements of the Privacy Act of 1974, as amended, to third parties as authorized under routine uses published in the foregoing SORN.

Your participation is voluntary and there are no consequences if an individual chooses not to participate or not to respond to specific questions on the survey. Your answers to this survey are confidential and anonymous, and no individual responses can be identified or traced. Only aggregate measures of the responses to this survey will be made available to the public. For examples of how the results from this survey may be shared, please see the [International and Foreign Language Education FLAS Performance](#) website for previous survey reports.
