Dear Mr. Kilburg,

Thank you for your comment on the Assessing SNAP Participants' Fitness for Work Study. We have considered your comments and made the following changes.

We have checked for spelling mistakes. We have corrected the spelling mistake in the title of Appendix HH in the list of appendices.

We have revised the sentence in Part A.2 of the Supporting Statement. The original read: "Should any of the four States decline to participate, the project team will recruit two alternative States." The revised reads: "Should any of the four States decline to participate, the project team will recruit a replacement from the two alternative States identified by FNS."

Sincerely,

Eric Sean Williams, PhD
