Scheduling Dietary Interview

SUGGESTED SCRIPTS FOR SCHEDULING DAY 1 DIETARY INTERVIEW

We would like to conduct a dietary interview over the phone as part of this health survey. The information will help us learn about the types of foods and beverages people eat and drink and the nutritional status of people living in the U.S. We will also ask about dietary supplements and antacids you used in the past 30 days. You will receive \$ 25 as a token of appreciation. Just like the information you have already provided, all the information you provide during this interview will be maintained confidential.

IF SP APPEARS UNCERTAIN, BE PREPARED TO HIGHLIGHT THE IMPORTANCE OF THE INTERVIEW. YOU CAN SAY SOMETHING LIKE:

We cannot ask everyone in the country to be in our study. You are special because you have been chosen to participate. No one else can take your place. We hope that you will help by doing this interview. It will take about {DAY 1 DISPLAY "45 minutes"; DAY 2 DISPLAY "35 minutes"} and it is a very important part of the health survey.

INSERT SCREEN VERIFYING PHONE NUMBER AND PROXY INFORMATION

This interview should take about 45 minutes.

Our first appointment is on:

Please keep in mind while scheduling this appointment that for safety reasons we cannot complete the interview on the phone while driving.

Measuring guides and hand cards:

In this plastic bag is a booklet, hand cards, ruler, and measuring cups and spoons to use for the dietary phone interview. Everyone in your home participating in the survey will use it. Keep it in a place that is easy to find. The phone interviewer will tell you how to use it.

When you check out today, you will receive a print-out of this appointment, along with a phone number if you have any questions or need to change your appointment.

SUGGESTED SCRIPTS FOR SCHEDULING DAY 2 DIETARY INTERVIEW

(Scheduled after completing Day 1):

You have just given us valuable information for this health and nutrition study. However, our studies have shown that food intakes change from day to day. A second day of information can provide a more complete picture of the usual food intake of the U.S. population. We would like to conduct a second interview with you again by telephone. You will receive \$25 for your time.

SUGGESTED REMINDER SCRIPT FOR DAY 1 AND DAY 2 DIETARY INTERVIEW

Good afternoon/morning, my name is _____. I'm calling from the National Health and Nutrition Examination Survey to remind you of your appointment for the dietary interview by phone, {TOMORROW}, {DAY OF THE WEEK}, at {TIME}. Please have your measuring guides {DAY 1 DISPLAY, 'and any dietary supplements and antacids you used in the past 30 days"} near the telephone. The interview will last approximately {DAY 1 DISPLAY, "45 minutes"; DAY 2 DISPLAY "35 minutes"}.

Should you have any questions before this time, please call 1-888-458-4762.

SUGGESTED REMINDER TEXT MESSAGE FOR DAY 1 AND DAY 2 DIETARY INTERVIEW

REMINDER: your appointment for the dietary phone interview is tomorrow, {DAY}, at {TIME am/pm}. Problems call 1-888-458-4762.

Other Suggested Scripts

SUGGESTED SCRIPT FOR PERMISSION TO AUDIO RECORDING

A standard part of our quality control procedures is to record interviews. The information being recorded is protected and kept confidential, the same as all your answers to the survey. This recording will be used to improve the quality of our survey and to review the quality of my work. The computer is now recording our conversation. Do I have your permission to record this interview?

Note: Currently, the release of NHANES questionnaire data ranges from 9 to 40 months after the completion of two-year data collection cycle. We will keep these recordings for three years and then destroy them to align with the data QC and release schedule.

SUGGESTED ENDING SCRIPT FOR DAY 1 AND DAY 2 DIETARY INTERVIEWS

Thank you for your time. The \$25 will be added to your debit card within three business days.

24-Hour Dietary Recall Interview

Both Day 1 and Day 2 Dietary Recall Interview will be administered by phone.

Target Group:

- Day 1: Participants of all ages
- Day 2: Participants of all ages who completed Day 1 dietary interview

Information will be obtained on all foods and beverages that were consumed during a 24-hour time period (midnight to midnight). The information that is obtained for foods and beverages includes the following:

- a. Time of day - Time when the food was eaten
- b. Meal name code - The name of the eating occasion is selected from a list of options.
- c. Food item name - The name of the food is either typed in or selected from a list of food item names.
- d. Food item description - Detailed description of the food including information about commercial product name (if applicable), preparation method, and major recipe ingredients.
- e. Fat added in preparation - A preparation fat probe is asked for certain foods. The type of fat used during food preparation is specified as well.
- f. Amount of food eaten - The amount of food consumed by the respondent.
- g. Food source - The place where the food was obtained is selected from a list of options
- h. Meal place - Whether the meal was eaten at home.

24-HOUR DIETARY RECALL INTERVIEW SUGGESTED SCRIPTS - DAY 1

A. Introduction

Hello, Mr./Mrs. {SP/PROXY}, my name is {INTERVIEWER'S NAME}. I am calling for the National Health and Nutrition Examination Survey to conduct {your/SP's} dietary interview.

For safety reasons I cannot complete this interview on a cell phone if you are driving. Are you driving? (If driving, call back when not driving to reschedule.)

You will need the food measuring guides that you received at our mobile exam center. If you have taken any dietary supplements or antacids in the last 30 days, you will also need the containers for this interview. I'll wait while you get them.

Do you have them? Yes/No/Needs to reschedule

If yes, go to next question.

If no: Let's go ahead with the interview anyway.

Do you have a ruler or some measuring cups and measuring spoons in your home that you can use for this interview?

If SP needs to reschedule:

We can schedule another appointment for the interview. Is there a time that will be convenient? Enter date/ Enter time/ Verify contact phone

If SP is not willing to reschedule:

We cannot ask everyone in the country to be in our study. You are special because you have been chosen to participate. No one else can take your place. We hope that you will help us with this interview. It will take about 45 minutes, you will receive \$25 for participating, and it is such an important part of the health survey.

If SP still says no: Thank you for your time.

B. Recall foods and beverages

First, we'll make a list of the foods you/SP ate and drank yesterday, *Monday*. It may help you remember what you/SP ate by thinking about where you/he/she were, who you/he/she were with, or what you were/he was/she was doing, like working, eating out, or watching television.

Please tell me everything you/SP had to eat and drink all day yesterday, Monday, from midnight to midnight. Include everything you/he/she had at home and away, even snacks, water, soft drinks, and alcoholic beverages. I'll ask you for specific details and amounts of the foods in a few minutes. At this time, just tell me what you/SP had.

C. Forgotten food probes

Your answers are important, so we'd like this list to be as complete as possible. In addition to the foods you have/SP has already told me about, did you have any coffee, tea, soft drinks, milk or juice?

Beer, wine, cocktails or other drinks?

Cookies, candy, ice cream or other sweets?

Chips, crackers, popcorn, pretzels, nuts, or other snack foods?

Fruits, vegetables, or cheese?

Bread, rolls or tortillas?

Anything else?

D. Food detail probes

If respondent has measuring guides:

During this interview, you can use the different items in the bag to describe the amounts of foods you ate and drank yesterday. In the package there are hand cards

along with measuring cups, measuring spoons, household spoons, and a ruler. The booklet has drawings of glasses, mugs, bowls, and other measurements. When I ask how much {you/SP} ate, you can estimate the amount by using the drawings in the Food Model Booklet, the measuring cups and spoons, the ruler, and any of your own dishes and glasses. I will help you find the right page in the booklet as we go through the interview. Feel free to check the labels on any food packages during the interview.

If respondent has their own measuring guides:

When I ask how much {you/SP} ate, use the cups and spoons for amounts of food and the ruler for length, width, and height. Please use those measuring tools and any of your own dishes and glasses. Feel free to check the labels on any food packages during the interview.

If respondent does not have measuring guides:

When I ask how much {you/SP} ate, use any of your own dishes and glasses to estimate the amount of food you ate and drank. Feel free to check the labels on any food packages during the interview.
