ACL/CDC supplemental funding to Expand COVID-19 Vaccine Access for People with Disabilities

Public Burden Statement:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number (OMB 0985-0030). Public reporting burden for this collection of information is estimated to average 1556 hours per response, including time for gathering and maintaining the data needed and completing and reviewing the collection of information. The obligation to respond to this collection is required to retain or maintain benefits.

Instructions for performance reporting for ACL/CDC supplemental funding to Expand COVID-19 Vaccine Access for People with Disabilities

Complete the tables of quantitative and qualitative data for service activities conducted between April 1, 2021 and September 30, 2022. [question for ACL: how should UCEDDs respond/report on activities not yet conducted at the time this report will be due? The report will be submitted July 30 and this funding period ends September 30. We'd like to ensure instructions reflect this.]

- Enter data for the full project period 4/1/21 through 9/30/22.
- Ensure that the information you enter is complete and correct.
- Enter the information in the column as specified in both Quantitative and Qualitative worksheets.
- If a list of valid values is provided, select only from these values. Do not add or change any values.
- Do not add or delete any columns in the worksheets.
- Do not change the sequence of the columns.
- Do not delete worksheets.
- In the Quantitative worksheet, enter digits only (no letters, punctuation, or symbols).
- In the Qualitative worksheet, enter up to 2,500 characters to describe your narrative, successes, and challenges for the service activities completed. Completion of all service activities was not required. For service activities not completed, enter N/A.
- In the Qualitative worksheet, enter up to 2,500 characters to describe collaborations with ACL partners, collaborations with other community-based organizations, lessons learned, and recommendations for future activities. These fields are not optional.
- In addition to completing this spreadsheet, include a project with related activities and products in NIRS to reflect this effort and its associated leveraged funds.
- Direct any questions related to the completion of this spreadsheet to Dawn Rudolph at drudolph@aucd.org.
- Upload completed data sheets as an attachment in the annual UCEDD PPR due July 30, 2022.

Project Title	Expand COVID-19 Vaccine Access for Peopl	le with Disabilities
