Agency Information Collection Activities; In-Season Subsistence Salmon Fishery Catch and Effort Survey

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing to renew an existing information collection without change.

DATES: Interested persons are invited to submit comments on or before August 22, 2022.

ADDRESSES: Send your comments on the information collection request (ICR) by one of the following methods (please reference “1018–0173” in the subject line of your comments):

- *Internet (preferred):* <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS–R7–NWRS–2022–0078.

- *Email:* Info_Coll@fws.gov.
- *U.S. mail:* Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT:

Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358–2503. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States

should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA, 44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR 1320, all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The administration and uses of national wildlife refuges and wetland management districts are governed by the National Wildlife Refuge System Administration Act of 1966 (Administration Act; 16 U.S.C. 668dd–668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997; the Refuge Recreation Act of 1962 (Recreation Act; 16 U.S.C. 460k–460k–4); and the Alaska National Interest Lands Conservation Act (ANILCA; 16 U.S.C. 3101 *et seq.*). ANILCA provides specific authorization and guidance for the administration and management of national wildlife refuges within the State of Alaska.

Renewal of OMB’s approval authorizes the Yukon Delta National Wildlife Refuge (YDNWR) to participate in the design and implementation of subsistence fisher surveys operated by the Orutsararmiut Traditional Native Council and the Kuskokwim River Inter-Tribal Fisheries Commission (KRITFC). Participation in the surveys informs in-season fisheries management decision-making in the Kuskokwim River subsistence salmon fishery.

The information collected by the survey includes the times individuals left and returned from boat launches, several characteristics of their fishing gear, broad classification of where the fishing activity occurred, for how long they actively fished, and how many of each of three salmon species they harvested. When coupled with aerial boat counts performed by the YDNWR, these data can be used to obtain quantitative estimates of total fishing activity and salmon harvest occurring from short-duration subsistence harvest opportunities. The estimates are then used to inform the management strategy used jointly by the YDNWR and the KRITFC.

Abstract: The USGS proposes to collect general demographic information about public users who download products from USGS user interfaces. This information helps address Congressional, OMB and DOI inquiries regarding common data uses and affiliations, along with other questions used to justify maintaining the free distribution of USGS land remote-sensing data. The information collected

in the database includes the names, affiliations, addresses, email addresses, and telephone numbers of individuals. The information is gathered to facilitate the reporting of demographic data for users of USGS applications. Demographic data are also used to make decisions on future functional requirements of the system.

The demographic information is stored on an internal encrypted database. In some cases, contact information is required in order to notify the customer about information regarding data availability. Email information is also utilized for two-factor authentication. The registration system does not derive new data and does not create new data through aggregation.

Personal information is not used as search criteria. Access to the information uses the least privileged access methodology (whereby access is limited to only the information absolutely necessary to perform a task). Authorized individuals with specifically granted access to the Privacy Act data can retrieve information only by account number or order number. Personal data is encrypted while stored in the database. A contact ID is generated when an account is created.
