

Export of Fertilized Live Eggs, Caviar, or Meat from Aqua-Cultured Paddlefish or Sturgeon (CITES)

New Reissue/Renew Amendment

APPLICATION FORM INSTRUCTIONS

The following instructions pertain to U.S. Fish and Wildlife Service (FWS) permit applications. The General Permit Procedures in [50 CFR 13](#) address the permitting process. For simplicity, all licenses, permits, registrations, and certificates are referred to as a permit.

If you are an individual, who would be named on the face of the permit, you need to complete the **Individual Applicant** section of this application.

If you are an individual seeking permits issued to yourself for activities not associated with your business or institution, you need to complete the **Individual Applicant** section as an individual permittee.

If you are an individual associated with a business or institution, and the business or institution's name would appear on the face of the permit, you need to complete the **Business Applicant** section of this application.

If you are a business applying on behalf of an individual, you need to complete the **Business Applicant** section of this application and include a limited power of attorney from the person for whom you represent.

A person/entity is qualified to obtain a U.S. Fish and Wildlife Service permit or license when they are "subject to the jurisdiction of the United States", per 16 USC 1532(13). A foreign person/entity with no permanent physical presence in the United States only qualifies for an import/export license when they physically enter or exit the U.S. with the wildlife items. The foreign entity is required to designate a U.S. agent for purposes of record keeping.

GENERAL INSTRUCTIONS:

- An incomplete application may cause delays in processing or may be returned to the applicant. Be sure you are filling in the appropriate application form for the proposed activity. Items marked with an asterisk (*) are required fields.
- Print clearly or type in the information. Illegible applications may cause delays.
- Sign the application. Faxes or copies of the original signature will not be accepted.
- If you choose to mail your submission, mail the original application to the address listed below or, if applicable, on the attached address list. We encourage electronic filing in the ePermits system.
- Keep a copy of your completed application.
- Please plan ahead. Unless otherwise indicated, allow at least 60 days for your application to be processed, however, some applications may take longer than 90 days to process (50 CFR 13.11). Longer processing times will be noted on those applications.
- Applications are processed in the order they are received.

Individual or Business Applicants:

Individual Applicant. **Complete if applying as an individual** [do not complete this application if applying for Import/Export License (3-200-3) or a Designated Port Exception Permit (3-200-2)]:

- Enter the information requested. Required fields must be completed. This is used to create your profile and consumer information in the ePermits system. **If you do not have an email address, enter not applicable.**
- **Doing business as (dba) / Affiliation:** The Division of Management Authority (DMA) and the Office of Law Enforcement (OLE) do **not** accept *doing business as* affiliations for individuals seeking permits on behalf of themselves. "Doing business as" affiliations apply to individuals seeking permits for a business, agency, Tribe, organizational, or institutional affiliation *directly* related to the activity requested in the application. For example, a taxidermist is an individual whose business can *directly* relate to the requested activity of exporting taxidermy (dba relevant permit); however, said taxidermist should not apply as a business for permits to non-business related travel with their pet exotic parrot (dba is **not** relevant to the permit; **complete** the **Business Applicant** section).

Business Applicant. Complete if applying as a business, corporation, public agency, Tribe, or institution:

- Enter the information requested. Required fields must be completed. This is used to create your contact and account information in the ePermits system. **If you do not have an email address, enter not applicable.**
- If you are applying on behalf of a client, a document evidencing **power of attorney** must be included with the application.
- **Principal Officer** is the person in charge of the listed business, corporation, public agency, Tribe, or institution. The principal officer is the person responsible for the application and any permitted activities. Often the principal officer is a Director or President.
- **The Contact** is the person at the business, corporation, public agency, or institution who will be available to answer questions about the application or permitted activities. Often this is the preparer of the application. Each person that is associated with the business that would need to access the business account needs to create their own contact in the ePermits system.

Application processing fee:

- An application processing fee is required at the time of application, unless exempted under 50 CFR 13. The application processing fee is assessed to partially cover the cost of processing a request. **The fee does not guarantee the issuance of a permit, nor will fees be refunded for applications for which processing has begun. Checks or money orders must be for the exact amount for each application submitted. If you are making more than one request, you must submit a separate payment for each request, otherwise your application will be returned.**
- **Documentation of fee exempt status is not required for applications submitted by Federal, Tribal, State, or local government agencies; but must be supplied by those applicants acting on behalf of such agencies.** Such applications must include a letter on agency letterhead and signed by the head of the unit of government for which the applicant is acting on behalf, confirming that the applicant will be carrying out the permitted activity for the agency.

CERTIFICATION:

- The individual identified in the Individual Applicant Section, the principal officer named in the Business Applicant Section, or person with a valid power of attorney (documentation must be included in the application) must sign and date the application. This signature legally binds the applicant to the statement of certification. You are certifying that you have read and understand the regulations that apply to the permit. You are also certifying that all information included in the application is true to the best of your knowledge. Be sure to read the statement and re-read the application and your answers before signing.

EXPORT OF FERTILIZED EGGS, CAVIAR OR MEAT FROM AQUACULTURED PADDLEFISH OR STURGEON (CITES)

This form may be used for:

- Export of aquacultured fertilized eggs, caviar or meat

This form may NOT be used for:

- Export of live specimens removed from the wild; use Form [3-200-27](#).
- Export of wild caught caviar or meat; use Form [3-200-76](#).
- Export of aquacultured live specimens; use Form [3-200-24](#).
- Re-export of specimens; use Form [3-200-73](#).
- Request export or re-export of species listed under the Endangered Species Act; use Form [3-200-37d](#).

Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use separate sheets of paper. On all attachments or separate sheets you submit, indicate the application question number you are addressing.

This application can be used to:

Request a single-use permit for export of a specific amount of caviar or meat that is valid for 6 months from the date of issuance. For re-issuance or amendment of a single use permit, the original permit must be returned with this completed application form.

Establish a Master File: A "Master File" can authorize exports of specific total amounts of caviar and can be valid for up to 3 years from the date of issuance. Once the Master File is approved, you must obtain partially completed certificates to export. Partially completed certificates are valid for 6 months. Certificates must be obtained prior to making any shipments and must accompany the shipment. Certificates may be applied for **AFTER** the Master File is established.

Amend an existing Master File: A "Master File" must be **amended** when there have been any changes to the information provided in the original application for a Master File. You need only provide the requested information for the changes that have occurred. However, if you intend to renew your current Master File at the same time you are amending it, see below.

Renew (or Amend and Renew) a Master File: To renew a Master File that has or will soon expire, **you must complete this entire application**, including providing all of the information requested in this form for all specimens to be included in your Master File and information on any changes to your facility, operations, species, or suppliers for the specimens that you wish to export.

Once a Master File is established or you are renewing (or amending and renewing) a Master File, you may request single-use permits using the [3-200-74](#). Please refer to the [fee schedule](#) to determine the cost of each of the above-listed activities.

1. If requesting a **single-use permit or master file with only one recipient**, provide the name and address of foreign recipient (if shipping to yourself, include your foreign address): (**NOTE:** Providing a foreign recipient is **not** required if establishing a master file.)

 - n. Mortality rates by age class.
 - o. Information regarding disease outbreak; this information should include the causative agent, if known, percent mortality, relevant pathological findings, and plan to reduce future disease outbreak.
 - p. Sacrifice rates by age class and sex.
5. Provide a statement on how your captive population(s) is being managed to maintain genetic viability.
6. Do you supplement from the wild?
 No Yes, provide the following:
 - a. A copy of the state authorization or collection permit(s) (i.e., aquaculture permit, broodstock permits, and capture logs).
 - b. What is the disposition of wild-origin fish (males and females) once they have been used to improve the genetic viability of your farm-raised population?
 - c. When is the last time you supplemented your stock with wild-origin fish?
 - d. When do you next intend to use wild-origin fish to improve the genetic viability of the population?
7. Provide production records for the previous year.
8. Are all roe that you are exporting F2 generation or more?
 No Yes

9. If you are the Breeder, sign the following statement:

I hereby certify that the species listed above to be exported were bred and born/hatched from parental stock at my facility listed below.

Name and address of your facility where the animals were bred and born;

Current location of parental stock:

Signature and date: _____

10. If you obtained stock from another facility, provide copies of documentation showing that you acquired the specimens from the breeder or documentation demonstrating the history of transactions (chain of ownership of each specimen) and a signed statement from the breeder or breeder's record that includes:

- a. Complete name and address of the breeder's facility.
- b. Scientific and common name of the species.
- c. Statement that the specimen(s) was/were bred and born/hatched at his/her facility.
- d. Birth/hatch date, and if applicable band/tag number, or other identifiers.
- e. Location (Name, Street address, City, State) of Parental Stock.

All international shipment(s) must be through a designated port. A [list of designated ports](#) (where a wildlife inspector is posted) is available. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (Form [3-200-2](#)).

PRIVACY ACT STATEMENT

Authority: The information requested is authorized by the following: the Bald and Golden Eagle Protection Act (16 U.S.C. 668), 50 CFR 22; the Endangered Species Act (16 U.S.C. 1531-1544), 50 CFR 17; the Migratory Bird Treaty Act (16 U.S.C. 703-712), 50 CFR 21; the Marine Mammal Protection Act (16 U.S.C. 1361, et seq.), 50 CFR 18; the Wild Bird Conservation Act (16 U.S.C. 4901-4916), 50 CFR 15; the Lacey Act: Injurious Wildlife (18 U.S.C. 42), 50 CFR 16; Convention on International Trade in Endangered Species of Wild Fauna and Flora (TIAS 8249), 50 CFR 23; General Provisions, 50 CFR 10; General Permit Procedures, 50 CFR 13; and Wildlife Provisions (Import/export/transport), 50 CFR 14.

Purpose: The collection of contact information is to verify the individual has an eligible permit to conduct activities which affect protected species. This helps FWS monitor and report on protected species and assess the impact of permitted activities on the conservation and management of species and their habitats.

Routine Uses: The collected information may be used to verify an applicant's eligibility for a permit to conduct activities with protected wildlife; to provide the public and the permittees with permit related information; to monitor activities under a permit; to analyze data and produce reports to monitor the use of protected wildlife; to assess the impact of permitted activities on the conservation and management of protected species and their habitats; and to evaluate the effectiveness of the permit programs. More information about routine uses can be found in the System of Records Notice, Permits System, FWS-21.

Disclosure: The information requested in this form is voluntary. However, submission of requested information is required to process applications for permits authorized under the listed authorities. Failure to provide the requested information may be sufficient cause for the U.S. Fish & Wildlife Service to deny the request.

PAPERWORK REDUCTION ACT STATEMENT

We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501) in order provide the U.S. Fish and Wildlife Service the information necessary, under the applicable laws governing the requested activity, for which a permit is requested. Information requested in this form is purely voluntary. However, submission of requested information is required in order to process applications for permits authorized under the applicable laws. Failure to provide all requested information may be sufficient cause for the U.S. Fish and Wildlife Service to deny the request. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. OMB has approved this collection of information and assigned Control No. 1018-0093.

ESTIMATED BURDEN STATEMENT

We estimate public reporting for this collection of information to average:

Original submission - paper-based: 2 hours for individuals and 3 hours for private sector and government
Original submission - electronically: 1.75 hours for individuals and 2.75 hours for private sector and government
Amended submission - paper-based: 2 hours for individuals and 3 hours for private sector and government
Amended submission - electronically: 1.75 hours for individuals and 2.75 hours for private sector and government

These estimates include time for reviewing instructions, gathering and maintaining data and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of the form to the Service Information Clearance Officer, Fish and Wildlife Service, U.S. Department of the Interior, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041-3803, or via email at Info_Coll@fws.gov. Please do not send your completed form to this address.

Questions regarding permits from Management Authority should be sent to managementauthority@fws.gov.
