APPLICATION FORM INSTRUCTIONS

The following instructions pertain to U.S. Fish and Wildlife Service (FWS) permit applications. The General Permit Procedures in <u>50</u> CFR 13 address the permitting process. For simplicity, all licenses, permits, registrations, and certificates are referred to as a permit.

If you are an individual, who would be named on the face of the permit, you need to complete the **Individual Applicant** section of this application.

If you are an individual seeking permits issued to yourself for activities not associated with your business or institution, you need to complete the **Individual Applicant** section as an individual permittee.

If you are an individual associated with a business or institution, and the business or institution's name would appear on the face of the permit, you need to complete the **Business Applicant** section of this application.

If you are a business applying on behalf of an individual, you need to complete the **Business Applicant** section of this application and include a limited power of attorney from the person for whom you represent.

A person/entity is qualified to obtain a U.S. Fish and Wildlife Service permit or license when they are "subject to the jurisdiction of the United States", per 16 USC 1532(13). A foreign person/entity with no permanent physical presence in the United States only qualifies for an import/export license when they physically enter or exit the U.S. with the wildlife items. The foreign entity is required to designate a U.S. agent for purposes of record keeping.

GENERAL INSTRUCTIONS:

- An incomplete application may cause delays in processing or may be returned to the applicant. Be sure you are filling in the
 appropriate application form for the proposed activity. Items marked with an asterisk (*) are required fields.
- Print clearly or type in the information. Illegible applications may cause delays.
- Sign the application. Faxes or copies of the original signature will not be accepted.
- If you choose to mail your submission, mail the original application to the address listed below or, if applicable, on the attached address list. We encourage electronic filing in the ePermits system.
- Keep a copy of your completed application.
- Please plan ahead. Unless otherwise indicated, allow at least 60 days for your application to be processed, however, some applications may take longer than 90 days to process (50 CFR 13.11). Longer processing times will be noted on those applications.
- Applications are processed in the order they are received.

Individual or Business Applicants:

Individual Applicant. **Complete if applying as an individual** [do not complete this application if applying for Import/Export License (3-200-3) or a Designated Port Exception Permit (3-200-2)]:

- Enter the information requested. Required fields must be completed. This is used to create your profile and consumer information in the ePermits system. If you do not have an email address, enter not applicable.
- **Doing business as (dba) / Affiliation**: The Division of Management Authority (DMA) and the Office of Law Enforcement (OLE) do **not** accept *doing business as* affiliations for individuals seeking permits on behalf of themselves. "Doing business as" affiliations apply to individuals seeking permits for a business, agency, Tribe, organizational, or institutional affiliation *directly* related to the activity requested in the application. For example, a taxidermist is an individual whose business can *directly* relate to the requested activity of exporting taxidermy (dba relevant permit); however, said taxidermist should not apply as a business for permits to non-business related travel with their pet exotic parrot (dba is **not** relevant to the permit; **complete** the **Business Applicant** section).

Business Applicant. Complete if applying as a business, corporation, public agency, Tribe, or institution:

- Enter the information requested. Required fields must be completed. This is used to create your contact and account information in the ePermits system. If you do not have an email address, enter not applicable.
- If you are applying on behalf of a client, a document evidencing **power of attorney** must be included with the application.
- Principal Officer is the person in charge of the listed business, corporation, public agency, Tribe, or institution. The principal
 officer is the person responsible for the application and any permitted activities. Often the principal officer is a Director or President.
- The Contact is the person at the business, corporation, public agency, or institution who will be available to answer questions about the application or permitted activities. Often this is the preparer of the application. Each person that is associated with the business that would need to access the business account needs to create their own contact in the ePermits system.

Application processing fee:

- An application processing fee is required at the time of application, unless exempted under 50 CFR 13. The application processing
 fee is assessed to partially cover the cost of processing a request. The fee does not guarantee the issuance of a permit, nor
 will fees be refunded for applications for which processing has begun. Checks or money orders must be for the exact
 amount for each application submitted. If you are making more than one request, you must submit a separate payment
 for each request, otherwise your application will be returned.
- Documentation of fee exempt status is not required for applications submitted by Federal, Tribal, State, or local government agencies; but must be supplied by those applicants acting on behalf of such agencies. Such applications must include a letter on agency letterhead and signed by the head of the unit of government for which the applicant is acting on behalf, confirming that the applicant will be carrying out the permitted activity for the agency.

CERTIFICATION:

• The individual identified in the Individual Applicant Section, the principal officer named in the Business Applicant Section, or person with a valid power of attorney (documentation must be included in the application) must sign and date the application. This signature legally binds the applicant to the statement of certification. You are certifying that you have read and understand the regulations that apply to the permit. You are also certifying that all information included in the application is true to the best of your knowledge. Be sure to read the statement and re-read the application and your answers before signing.
