APPENDIX A: PROPOSED REPOSITORY FOR COLLECTED SPECIMENS

If you are not using the automated system supporting this report process,
please fill out this form and return it to the appropriate park.
All or some of the information you provide may become available to the public.

A principal investigator has requested permission to collect specimens for permanent retention in whole or in part and has requested that the specimens and/or material originating from such specimens be loaned by the U.S. National Park Service (NPS) to a repository that is not administered by the NPS. The principal investigator has been instructed to obtain the signature of the repository official(s) as part of the permit application. The following information should be completed and provided to the principal investigator. The principal investigator is responsible for ensuring the original signed form (or fax of the signed form) is received by the appropriate Park Research Coordinator. Each non-NPS institution proposed to receive loaned specimens or material originating from such specimens must complete this form. Note that all specimens collected and material originating from such specimens remain Federal property.

Privacy Act Statement

Authority: 16 U.S.C. 1, National Park Service Organic Act; 16 U.S.C. 3, Rules and regulations of national parks, reservations, and monuments; timber; leases; 16 U.S.C. 5935, National Parks Omnibus Management Act.

Purpose: The two primary uses of the records maintained in the system are to administer scientific research and collecting within units of the National Park System, and to make Investigator's Annual Reports available to the public.

Routine Uses: In addition to those disclosures generally permitted under 5 U.S.C.552a(b) of the Privacy Act, records or information contained in this system may be disclosed outside DOI as a routine use pursuant to 5 U.S.C. 552a(b)(3) to other federal, state, local, tribal or foreign governments and organizations, and members of the general public based on an authorized routine use when the disclosure is compatible with the purpose for which the records were compiled as described under the system of records notice for this system.

Disclosure: Voluntary, however, failure to provide the requested information may impede the processing of your application for scientific research and collecting permit.

Paperwork Reduction Act Statement

We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501) and National Parks Omnibus Management Act of 1998 (NPOMA, Sections 201 (4), 201 (5), and 205 which govern the use of parks for study to benefit park management and broader science, and also publication of information derived from studies conducted in the National Park System. The National Park Service collects information about permit applicants and permittees to administer and document research, collecting, and reporting activities within parks. All applicable parts of the form must be completed in order for your request to be considered. Failure to provide the information may result in denial of your permit application. A Federal agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. OMB has approved this collection of information and assigned OMB Control No. 1024-0236.

Estimated Burden Statement

Public reporting burden for this form is estimated to average 1.38 hours per response, including the time it takes for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Comments regarding this burden estimate or any aspect of this form should be sent to the Information Collection Clearance Officer, National Park Service, 12201 Sunrise Valley Dr. (MS-242), Reston, VA 20192.
