

FY 2023 Emergency Operations Center (EOC)

Investment Justification Template

Introduction

As part of the FY 2023 Emergency Operations Center (EOC) Grant Program application process, applicants must develop a formal Investment Justification (IJ) that addresses the proposed EOC construction or renovation project identified for federal funding support. The Investment Justification must be consistent with the project authorized for funding in accordance with the Congressionally Directed Spending (CDS) outlined in the Joint Explanatory Statement accompanying the *Consolidated Appropriations Act, 2023* (Pub. L. No. 117-328).

The Federal Emergency Management Agency (FEMA) has developed guidelines that establish the required IJ content and helps ensure that submissions are organized in a consistent manner while addressing key data requirements. This IJ template may be used by applicants to complete and submit their IJ. If applicants do not wish to use this form, they must follow the requirements detailed in the FY 2023 EOC Grant Program Notice of Funding Opportunity (NOFO). Failure to address these data elements in the prescribed format, including the strict formatting guidelines, could potentially result in the rejection of the Investment Justification from review consideration.

All submitted applications must use the following file naming convention when submitting required documents as part of the FY 2023 EOC: "FY 2023 EOC <State Abbreviation> - <EOC Name>." If using this Excel template, applicants must submit the IJ in the Excel format.

All prospective recipients of CDS funds must apply through their State Administrative Agency (SAA). The application must include a completed IJ. Each SAA will establish their own application submission deadline to allow sufficient time for State review. All applicants are encouraged to review the FY 2023 EOC Grant Program NOFO for details on the application submission process.
