

## **Attachment 2: Email invitation to complete the pre-meeting survey**

Dear NS2G Learning Community Participants,

**To prepare for the learning community meeting on October 27, we are asking for one person from your team to answer two questions.** The information will help us create breakout groups of people interested in discussing similar aspects of the work to strengthen two-generation initiatives.

**Please complete the survey by October XX,** so we can use the information to support a productive meeting.

We truly appreciate your participation and the time and effort you've given to help us learn more about two-generation programming.

Sincerely,

Christine Ross

For the Learning Community
