

U.S. Department of Health and Human Services Office of Community Services (OCS) Community Services Block Grant (CSBG) Grant Recipient Satisfaction Survey 2023

Introduction

As part of its current performance management framework, the U.S. Department of Health and Human Services Office of Community Services (OCS) is seeking feedback from our Community Services Block Grant (CSBG) grant recipients. We expect the results of this survey to provide OCS with data about its performance on the federal accountability measures and assist us in identifying areas for continued improvement.

Your participation, while voluntary, is critical for us to understand how well we are performing on the federal accountability measures, and how well we are delivering service to you. This information will be used by OCS to make improvements to ensure the best possible customer experience.

This survey is being administered by CFI Group, an independent third-party research group. Your answers will remain anonymous and will be combined with those from other respondents to identify opportunities for improvement.

This survey should take no longer than 12 minutes to complete and will be open through Month XX, 2023. It is authorized by the U.S. Office of Management and Budget (OMB) Control No. 0970-0401, which expires on June 30, 2024.
