

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. In this round, last week's additional questions are removed; non-substantive additions include questions previously fielded regarding parents intention to vaccinate children. Additionally, we are asking questions for the first time regarding awareness, knowledge, and concerns about the Delta variant, opinions on reinstatement of various pandemic restrictions, and the potential impact of booster shots if recommended, which also considers current vaccination status.
