

## CET – Annotated Questionnaire (Wave 55)

Note: The questions below are the proposed questions for the fifty-fifth wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about reasons for not getting vaccinated or boosted, perceptions of side effects, the Omicron BA.2 variant, COVID risk factors, and preventive behavior.

For the next section we would like to talk about current events.
