

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 60)

Note: The questions below are the proposed questions for the 60th wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about COVID and testing experiences, comfort with travel experiences, perceptions of the removal of mask mandates on public transit, and the test-to-treat initiative.

For the next section we would like to talk about current events.

// Page Break //

//BASE: All respondents//

Item #: Q1

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh1_cet_r: Have you received a COVID-19 vaccine?

Variable Label: beh1_cet_r: Vaccination behavior

Value	Value Label
0	No, I have not received a COVID-19 vaccine
1	Yes, but I have only received one shot out of the two required shots
2	Yes, I have received all of the required shots
-99	Refused

// Page Break //

//BASE: beh1_cet_r=1 or 2//

Item #: Q2

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vaccine_id: Which COVID-19 vaccine did you receive?

Variable Label: vaccine_id: Vaccine ID

Value	Value Label
2	Johnson & Johnson/Janssen
3	Moderna
4	Pfizer-BioNTech
5	Other

99	I do not remember
-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q3

Question Type: Dropdown menu

// Soft Prompt: “We would like your response to this question.” //

fully_vacc_month: In which month were you considered fully vaccinated (i.e., two weeks after your final COVID-19 vaccine dose)? Final vaccine dose refers to either the second dose of the Pfizer or Moderna vaccine, or the single dose of the Johnson & Johnson vaccine. Please do not consider booster shots for this question. If you do not remember the specific month, give your best guess.

Variable Label: fully_vacc_month: Month of vaccination

Value	Value Label
1	December, 2020
2	January, 2021
3	February, 2021
4	March, 2021
5	April, 2021
6	May, 2021
7	June, 2021
8	July, 2021
9	August, 2021
10	September, 2021
11	October, 2021
12	November, 2021
13	December, 2021
14	January, 2022
15	February, 2022
16	March, 2022
17	April, 2022
18	May, 2022
-99	Refused

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q4

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

booster_uptake4: U.S. health officials and medical experts now recommend COVID-19 vaccine booster shots. Have you received a COVID-19 vaccine booster shot?

Variable Label: booster_uptake4: Booster uptake – April 2022 guidance

Value	Value Label
0	No
1	Yes, I have received 1 booster shot
2	Yes, I have received 2 booster shots

-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake4=0 & vaccine_id=2 & fully_vacc_month=1-15) OR
(booster_uptake4=0 & vaccine_id=3-4 & fully_vacc_month=1-12) //

Item #: Q5

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_elig_uptake3: You are currently eligible to receive a COVID-19 vaccine booster shot. What is the likelihood that you will get one?

Variable Label: booster_elig_uptake4: Booster uptake likelihood – eligible adults

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake4=0 & vaccine_id=2 & fully_vacc_month=16-17) OR
(booster_uptake4=0 & vaccine_id=3-4 & fully_vacc_month=13-17

Item #: Q6

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_likely_v2: What is the likelihood that you will get a COVID-19 vaccine booster shot when eligible?

Variable Label: booster_likely_v2: Booster uptake likelihood – not yet eligible

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

Item #: Q7

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh2a_cet: What is the likelihood that you will get a COVID-19 vaccine?

Variable Label: beh2a: Intention to get vaccinated

Value	Value Label
1	Very unlikely
2	Somewhat unlikely

3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: beh1_cet_r=0 OR -99//

Item #: Q8

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

beh3a_cet_r: How soon will you get vaccinated?

Variable Label: beh3a_cet_r: Wait to get vaccinated

Value	Value Label
1	I will get a vaccine as soon as I can
2	I will wait to get a vaccine for one or more reasons
3	I will never get a COVID-19 vaccine
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: All respondents//

Item #: Q9

Question Type: Multi punch

// Soft Prompt: “We would like your response to this question.” //

parent: Are you the parent of a child or children in the following age groups?

Variable Label: parent: Parent of children in following age groups

Value	Value Label
1	Younger than 6 months old
2	6 months to <2 years old
3	2 to 4 years old
4	5 to 11 years old
5	12 to 15 years old
6	16 to 17 years old
99	None of the above, I do not have children in those age groups [EXCLUSIVE]
-99	Refused

// Page Break //

Item #: Q22

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question."//

transit_mask: Recently, the federal mask mandate requiring people to wear masks on public transportation was removed. Thinking about this, how much do you agree or disagree with the following statements?

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
transit_mask_1	It is too soon to lift mandates requiring masks on airplanes, trains, buses, and other public transportation.	transit_mask_1: Too soon to lift mandate
transit_mask_2	The removal of mask mandates on public transportation will lead to an increase in COVID cases.	transit_mask_2: Increase in cases
transit_mask_3	The removal of mask mandates on public transportation will put children under 5 at risk, because they are not yet eligible to get a COVID vaccine.	transit_mask_3: Children at risk
transit_mask_4	The removal of mask mandates on public transportation will put immunocompromised and/or elderly travelers at risk of contracting COVID.	transit_mask_4: Immunocompromised and elderly at risk
transit_mask_5	I will continue to wear a mask on public transportation despite the mask mandate being removed.	transit_mask_5: Continue to wear mask
transit_mask_6	We have reached the stage in the pandemic where it makes sense to remove the mask mandate on public transportation.	transit_mask_6: Mask mandate removal makes sense
transit_mask_7	It should be an individual's choice whether or not they want to wear a mask on public transportation.	transit_mask_7: Individual choice

Value	Value Label

Item #: Q25

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question."//

ptn_w60: We are interested in your opinion of a few messages about COVID-19 vaccines or boosters.

For each of the below messages, please indicate how much you agree or disagree with the following statement:

"I would share the information in the message with a friend or family member who wants to know more about COVID-19 vaccines or boosters."

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
ptn_w60_1	Vaccinated adults who haven't gotten a booster are twice as likely to be hospitalized with COVID as those who have gotten a booster.	ptn_w60_1: Twice as likely
ptn_w60_2	Over 10 million children ages 5-11 have gotten a COVID vaccine.	ptn_w60_2: 10 million children
ptn_w60_3	Children and teens who have COVID can have new or lingering symptoms that last for weeks or months after infection. This condition is known as long COVID.	ptn_w60_3: Long COVID
ptn_w60_4	It's true that some vaccinated people still get COVID. But if you do get COVID, being vaccinated is your best defense against severe illness and symptoms that last for months.	ptn_w60_4: Best defense
ptn_w60_5	For those over 50, getting a 2nd COVID booster 4 months after your 1st booster dose helps prevent severe COVID disease.	ptn_w60_5: Second booster

Value	Value Label
1	Strongly disagree
