

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. This wave re-fields questions on trusted sources, the COVID-19 public health emergency ending, COVID risk perceptions, and COVID symptoms and testing. New or modified questions include those on pandemic concern, COVID risk perceptions, updated vaccine location, COVID symptoms and testing, and testing new messages.
