

Screening Questionnaire

Under the Paperwork Reduction Act, a federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control number. The OMB Control Number for this information collection is 2127-0731 (expiration date: MM/DD/YYYY). The average amount of time to review and complete the form is 5 minutes. The purpose of this research study is to examine drivers' use of rearview video systems. All responses to this collection of information are voluntary. If you have comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden send them to Information Collection Clearance Officer, National Highway Traffic Safety Administration, 1200 New Jersey Ave, S.E., Washington, DC, 20590.

Note: Initial contact between participants and researchers may take place over the phone. If this is the case, read the following Introductory Statement, including the Paperwork Reduction Act statement, followed by the questionnaire. Regardless of how contact is made, this questionnaire must be administered before a decision is made regarding suitability for this study.

Introductory Statement:

After prospective participant calls or you call them, use the following script as a guideline in the screening interview.

Hello. My name is _____ and I'm with the Virginia Tech Transportation Institute, here at the Virginia Smart Rds, in Blacksburg, VA. We are currently recruiting people to participate in a research study. This study involves participating in one session, lasting about 1.75 hours during daytime hours (likely M-F, 8-5 pm). If eligible, you will be asked to drive a research vehicle on a closed to the public test course at Virginia Tech Transportation Institute and to perform various parking tasks. An experimenter will be in the vehicle with you at all times. The research vehicle is equipped with data collection equipment which records video and audio data while you are in the vehicle. Prior to the driving portion, you will need to complete paperwork, a simple vision and hearing test and be willing to perform a simple flexibility test. To do this, we will ask you to sit in a chair and move your head, neck, and shoulders as you do when you are driving.

This project provides compensation of \$50, with a MasterCard, for full participation.

Any questions yet?

[Read Paperwork Reduction Act statement.]

If you are interested in possibly participating, I need to go over some screening questions to see if you meet all the eligibility requirements of this study. Any information given to us will be kept secure and confidential.

Do I have your consent to ask the screening questions? [If yes, continue with the questions. If no, then thank him/her for their time and end the phone call.]
