INSTRUCTIONS:

The narrative is a document critical to the **Change of Ownership Review** transaction process (formerly known as a transfer of physical assets or TPA transactions) that include, but are not limited to, transactions demonstrating the following characteristics:

- a. The sale and conveyance by deed of title to a property that has a mortgage insured or held by HUD and necessitates a substitution of Borrowers.
- b. The transfer/change of an entity having a controlling interest in a property that has a mortgage insured or held by HUD.
- c. Transactions with a change of Internal Revenue Services (IRS) Reporting Structure (e.g., a Borrower converts from a limited partnership to a limited liability company, but all principals remain the same and the Tax Identification Number (TIN) is not changing).

If a change of ownership entities/structure will be completed in conjunction with a Section 232 refinance under Section 223(a)(7) of the National Housing Act, **do not use this form**. The required exhibits for processing the transaction are listed on the Section 223(a)(7) Firm Application Checklist posted on the Section 232 Program website. A change to ownership entities/structure is also possible prior to the final closing of an insured note for new FHA mortgage insurance; however, please discuss with the ORCF Closer assigned. Depending on the extent of the change, ORCF may choose to reprocess the application for mortgage insurance or require submission of this Change of Ownership application.

If this transaction includes a change of Operator and/or Management Agent in conjunction with

the **Change of Ownership Review** application, those transactions may be combined with this submission. Where applicable, please provide additional documentation for those transactions; there is no need to complete separate applications for a change of Operator and/or Management Agent. However, if the subject transaction is for a **Change of Operator** and/or **Change of Management Agent** and does not involve a **Change of Ownership** transaction as described above, **do not use this form**. For further description of these requirements, please refer to Chapters 7 and 8 of the Section 232 Handbook 4232.1, Section III Asset Management.

The corresponding **Change of Ownership Review Checklist** provides instructions that determine the level of review required to approve the transaction. Your response to a few questions will generate a **Transaction Determinant Code** (e.g., □□□□□) that identifies the documents required for submission with this application. This Transaction Determinant Code also identifies the sections of this Lender Narrative that must also be completed. Each of these sections of the narrative and all of the questions in these sections marked with the corresponding Transaction Determinant Code must be completed and answered. If the lender disagrees and modifies any third-party report conclusions, sufficient detail to justify the change must be provided. This narrative is to identify the strengths and weaknesses of the transactions and demonstrate how the weaknesses are mitigated.

- **Charts:** The charts contained in this document have been created with versatility in mind; however, they will not be able to accommodate all situations. For this reason, you are allowed to alter the charts as the situation demands. Be sure to state how you have altered the charts along with your justification. Include all the information the form calls for. Charts that include **blue** text indicate names that should be modified by the lender as the situation dictates.
- **Applicability:** If a section is not applicable, state so in that section and provide a reason. **Do not delete a section heading that is not applicable.** The narrative will be checked to make certain all sections are provided. If a major section is not applicable, add “– Not Applicable” to the heading and provide the reason. For instance:

Parent of the Operator – Not Applicable

This section is not applicable because there is no operator.

The rest of the subsections under the inapplicable section can then be deleted. This instruction page may also be deleted.

- **Format:** In addition to submitting the PDF version of the Lender Narrative to HUD, please also submit an electronic Word version.

Instead of pasting large portions of text from third-party reports into the narrative, it is preferred that the lender simply reference the page number and the report. The focus of this document is for lender conclusions, analyses, and summaries.

Italicized text found between these characters <<EXAMPLE>> is instructional in nature, and may be deleted from the lender’s final version. Please use the gray shaded areas (e.g.,) for

your response. Double click on a check box and then change the default value to mark selection (e.g.,)

Title

For a Change of Ownership transaction, HUD requires either an endorsement to the existing lender’s policy or a new lender’s policy.

If an endorsement is proposed, it must show that the new borrower owns the property and has assumed liability under the Loan Documents. The endorsement must also show that there has not been a change in the priority of the Loan Documents. It must also confirm that no new exceptions have been recorded since the insured closing. If there are new exceptions to the policy shown on the endorsement, these must be provided (along with an explanation and/or confirmation of previous HUD approval).

If a new Lender’s policy is provided, it must confirm to the current standards HUD requires for insured closings.

Owner-operated projects with material accounts receivables over 120 days that do not intend to have Accounts Receivable Financing should address the project State’s recent trends in length of time until reimbursement is made. to the new project. Discuss your analysis of these issues and how the lender determined they are an acceptable risk.

*Example: **No Financial Statements:** The new operator is a newly formed entity and does not have a financial history to report. At this time, the operation of the subject facility will be the new entity’s sole purpose, so there is no need to review financial data from other facilities or sources.*

*Example: **Tenant Security Deposits:** The tenant security deposits do not appear to be fully funded. At closing, however, the borrower will not be the new operator and the tenant deposit obligation will fall to the new operator; therefore, the lender has included an approval condition requiring the new operator to set up project accounts by closing and to provide an acceptable, certified Balance Sheet showing that the tenant security deposits are fully funded.>>*

<<For each “yes” answer above, provide a narrative discussion on the topic describing the risk and how it will be mitigated.>>

Program Guidance: Lenders need to provide HUD with information in their application regarding any changes to the operator that will occur within the next 5 years. This plan of action is needed to ensure that the quality and experience of any potential new operator will be comparable or better than the current operator. For assisted living facilities (ALFs), it is important to re-emphasize that operators need to be experienced and have a proven track record with the operation, marketing, and lease up of ALF facilities. The 5-year lease expiration issue does not apply to lessees that have lease renewal options.

Lease Payment Analysis

The lease payments must be sufficient to (1) enable the borrower to meet debt service and impound requirements; and (2) enable the operator to properly maintain the project and cover operating expenses. The minimum annual lease payment must be at least 1.05 times the sum of the annual principal, interest, mortgage insurance premium, reserve for replacement deposit, property insurance, and property taxes.

The lender has prepared an analysis demonstrating the minimum annual lease payment.

a. Annual principal and interest	\$
b. Annual mortgage insurance premium	
c. Annual replacement reserves	
d. Annual property insurance	
e. Annual real estate taxes	
f. Total debt service and impounds	\$
g. Minimum annual lease payment	\$

<<Compare the minimum annual lease payment to the current lease payment. If the lease payment needs to increase, add the following language: “The lease payment must be increased to \$XX per year (\$XX per month). The lender has included a special condition to the firm commitment requiring the lease payment be revised to meet or exceed this minimum.” If the lease payment does not need to increase, add the following language: “The current lease payment is sufficient. The recommended annual lease payment also provides the operator with an acceptable profit margin.”>>

Responsibilities

<<Provide a description of the responsibilities of the Lessor and Lessee under the terms of the lease with regard to the following: payment of real estate taxes, maintenance of building, capital improvements, replacement of equipment, property insurance, etc.>>

| 4. Does the new parent of the operator currently participate in any other HUD master leases? <input type="checkbox"/> N/A | <input type="checkbox"/> | <input type="checkbox"/> |

Proposed AR Loan Costs

<<If the AR borrower is obtaining AR financing for the first time, provide a financial analysis that demonstrates that the AR borrower has sufficient financial capacity to pay all projected operating expenses, AR financing costs and loan payments, and all rent or debt service payments. The analysis must assume the maximum AR loan amount to stress test the AR financing based on the lesser of the operator’s 12-month trailing operating statements. Calculate the impact on the borrower’s debt coverage after payment of the AR loan expenses and payments.>>

Assuming the \$ maximum AR loan limit, an annual interest rate of %, and that the entire amount is outstanding for the year, the maximum annual interest expense would be \$. In addition to the interest, the other associated fees are the fees <<list types of fees>>, that total \$ per year for the same assumed balance. An analysis of the operator’s 12 month trailing financial statement (Month 20XX – Month 20XX) is below:

12-Month Trailing Operating History	
Operating revenue	\$
Less: Operating expenses	
Net operating income (NOI)	\$
Annual P&I + MIP	\$
AR fee: Interest	
AR fee: Other	
Total annual mortgage & AR debt service	\$
DSCR including AR	

The transaction assumed an NOI of \$. The 12-month trailing NOI is \$. The annual debt service including the MIP amount is \$ per year. Adding the AR fees equates to a total mortgage and AR debt service expense of \$ per year. This equates to prospective debt service coverage.

<<If multiple HUD-insured facilities have access to the AR loan, repeat the analysis above with the consolidated revenues and expenses for all those facilities.>>

Recommendation

<<The lender recommends approval of the AR loan.>>

Key Questions

- | | Yes | No |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1. Is less than 6 years of loss history available? | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Does the loss history indicate any professional liability claims over \$35,000? | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Does the loss history or potential claims certification indicate any uncovered claims? | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Does the insurance policy cover multiple properties? | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Does the loss history or potential claims certification indicate any claims that would exceed the per occurrence or aggregate coverage limits at the facility? | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Has the facility been covered by a “claims made” policy at any time during the statute of limitations for the State in which the facility is located? | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Is the policy funded on a “cash front” basis? | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Is an actuarial study applicable (self-insurance)? <i>(If yes, discuss results below.)</i> | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. For all facilities Owned, Operated or Managed by the new operator and/or parent of the operator, are there any surveys/reports that have open G-level or higher citations outstanding? <i>(As appropriate, provide a complete analysis of the surveys.)</i> | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. Are any entities that provide resident care (as discussed in the Provider Agreements and Resident Care Agreements/Rental Agreements) not covered by the PLI policy? | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Are there any PLI issues that require special consideration? | <input type="checkbox"/> | <input type="checkbox"/> |

<<For each “yes” answer above, provide a narrative discussion on the topic describing the risk and how it will be mitigated.

*Example: **1. Multiple properties:** The lender notes that the professional liability policy is a ‘blanket’ policy covering XXX facilities, including the subject...{address potential impact of other facilities on the subject’s coverage}*

*Example: **2. Less than 6-year loss history:** The claims history reports were examined for the period XX through XX. The lender determined that there were no professional liability XX claims during that period... {Address claims and sufficiency of coverage, etc. based on history}.*

*Example: **Claims made coverage:** The project’s previous professional liability insurance coverage was a “claims made” form policy with XXXX, which expired XXXX, when the current policy was put in place. In XXXX the borrower purchased a “nose coverage” policy which is the coverage needed when going from a “claims made” form of insurance to a “per occurrence” form of insurance. The premium for this “nose” coverage liability was a one-time charge and was paid in XXX. Because of that additional insurance coverage, the insurance expense for XXXX was substantially higher than the current expense. The current “per occurrence basis” insurance policy covers the entire statute of limitations. The project’s professional liability insurance is in compliance with HUD’s requirements. >>*

Lawsuits

<< Identify all potential or expected professional liability insurance (PLI) claims in excess of \$35,000 that have been or may be filed for all periods within the statute of limitations for the state where the claim occurred. Identify any reserves held for potential claims. Discuss the risk associate with each potential PLI claim. Discuss how that risk is mitigated. Describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by PLI insurance, and if the insurance is not sufficient, does the insured demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.

As applicable, discuss other types of lawsuits (non-PLI) and describe the potential risk related to the party’s participation in the proposed project. Discuss how that risk is mitigated. If the suit is closed, does it contribute to a pattern? Does it materially affect the party’s ability to participate in the project? If not closed, describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by insurance (general liability), and if the insurance is not sufficient, do they demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.>>

Commercial General Liability Insurance

<<Provide narrative discussion of policy coverage for bodily injury, property damage and personal injury. For example: General liability insurance will be provided by XX. The underwriter has confirmed estimates of the cost and coverage for underwriting and will re-verify

this information prior to closing. The insurance coverage will comply with HUD requirements prior to closing.>>

Recommendation

<<Provide narrative recommendation regarding acceptability of professional and general liability insurance. For example: “The new borrower’s professional and general liability insurance was analyzed in accordance with Handbook 4232.1, Section II Production, Chapter 14 and Appendix 14.1. The property has XX current potential (threatened) insurance claims at this time as reflected on the certification provided by the borrower. It is {lender’s} opinion that the information provided above and in the application sufficiently demonstrates that the existing professional liability coverage meets HUD’s requirements and that the risk from professional liability issues is sufficiently addressed. No modifications to the current coverage are recommended.”>>

Property Insurance

<<Provide narrative discussion of policy coverages as applicable, including property damage, ordinance and law coverage, and boiler and machinery/equipment breakdown insurance. For example: “Property insurance will be provided by XX. The lender has confirmed estimates of the cost and coverage for and will re-verify this information prior to closing. The insurance coverage will comply with HUD requirements prior to closing.”>>

Fidelity Bond/Crime Insurance Coverage

*<<Provide narrative discussion of fidelity bond/crime insurance coverage. For example: “The current insurance policy reflects fidelity (crime) insurance with the limit of \$XX and \$XX deductible. The HUD requirement for at least two months **potential** gross income receipts would total \$XX. The current level of coverage is sufficient for this project.” If not sufficient, recommend commitment condition.*
