

The image shows a complex software interface, likely a data management or reporting tool. It features several distinct panels and components:

- Left Panel:** Contains a vertical list of items, possibly a navigation menu or a list of data entries.
- Top Section:** Includes a header area with a color-coded bar (red, yellow, green) and a small chart or gauge.
- Central Area:** Dominated by a large table with many columns and rows. The table is mostly green, with some yellow and white cells. It appears to be a data grid or a list of records.
- Right Panel:** Contains a smaller table or chart, also with green and yellow cells, possibly representing a summary or a different view of the data.
- Bottom Section:** Includes a series of small icons or buttons, possibly for navigation or data manipulation.

The overall layout is dense and organized, typical of a professional data analysis or management application.

**Lender Notes:**
