

# Catfish Production

ISSN: 1948-271X

---

Released February 10, 2023, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

## **Catfish Value of Sales Up 5 Percent from 2021**

Catfish growers in the United States had sales of 447 million dollars during 2022, up 5 percent from 427 million dollars the previous year. The top four States (Mississippi, Alabama, Arkansas, and Texas) accounted for 96 percent of the United States total sales. The United States total Foodsize sales of 422 million dollars increased 5 percent from the previous year. Sales of Stockers totaled 10.6 million dollars in 2022, compared to 8.37 million dollars in 2021. Fingerling and fry sales totaled 12.1 million dollars, down 11 percent from 2021.

By point of first sale, direct sales to processors accounted for 93.7 percent of total Foodsize fish sales, up 1.6 percent from the previous year. Wholesale to other producers accounted for 79.5 percent of Stocker sales compared to 81.7 percent in 2021.

## **Water Surface Acres Down 4 Percent from January 1, 2022**

The water surface acres being used for catfish production as of January 1, 2023, totaled 55,855 acres, down 4 percent from the 58,300 acres used a year earlier. Of the total acres, 2,385 are to be renovated during the period of January 1 to June 30, 2023. An additional 135 acres are under construction or expected to be constructed and in use by July 1, 2023. During the period of July 1 through December 31, 2022, the area taken out of production totaled 1,715 acres. As of January 1, 2023, Foodsize fish were produced on 45,435 acres, Fingerling producing acres totaled 7,510, and 2,230 acres were being used for Broodfish production.

## **Inventory**

Catfish producers had 890 thousand Broodfish on hand January 1, 2023, up 22 percent from January 1, 2022. Large foodsize fish on hand totaled 3.55 million on January 1, 2023, down 22 percent from a year ago. The inventory of Medium foodsize fish was down 2 percent to 45.9 million, while Small foodsize fish inventory was down 19 percent at 86.9 million. Large stockers on hand January 1, 2023, at 118 million fish, were down 7 percent from the previous year. Small stocker inventory was down 5 percent to 191 million. There were 281 million Fingerlings on hand January 1, 2023, down 1 percent from January 1, 2022.

### Terms and Definitions Used for Catfish Production Estimates

**Broodfish:** Fish kept for egg production, including males. Broodfish produce the fertilized eggs, which go to hatcheries. The most desirable size is 3 to 10 pounds or 4 to 6 years of age.

**Fingerlings:** Fish weighing 2 to 60 pounds per 1,000 fish or 2 to 6 inches in length.

**Foodsize (large):** Fish weighing over 3 pounds.

**Foodsize (medium):** Fish weighing over one and one-half pounds to 3 pounds.

**Foodsize (small):** Fish weighing over three-fourths of a pound to one and one-half pounds.

**Fry:** Fish weighing less than 2 pounds per 1,000 fish or less than 2 inches in length.

**Stocker (large):** Fish weighing over 180 pounds to 750 pounds per 1,000 fish.

**Stocker (small):** Fish weighing over 60 pounds to 180 pounds per 1,000 fish or over 6 inches in length.

## Terms and Definitions Used to Describe Point of First Sale

**Government Agencies:** Sales to Federal, State, or local government agencies for the purpose of stocking public waters.

**Live Hauler/Broker:** Sales made to an individual or company that generally purchases live fish from a producer and transports them in an oxygenated tank truck to other outlets.

**Other Outlets:** Sales to outlets not meeting one of the other defined outlets.

**Point of First Sale Outlet:** The first point at which money changes hands.

**Processors:** Sales made directly to a plant for processing.

**Recreational Stocking:** Only includes fish sold to individuals or private entities for the sole purpose of stocking recreational waters.

**Retail Outlets:** Fish sold directly to entities who buy fish to re-sell to consumers. Includes grocers, restaurants, and fish markets.

**Wholesale to Other Producers:** Fish sold to other producers for the intention of growing out for further sale at a later time.

## Statistical Methodology

**Survey Procedures:** Data for catfish production are collected from all known producers in the six published states and a sample of producers from the remaining states. NASS Regional Field Offices maintain a list of all known catfish producers and use known sources of producers to update their lists. Operators are mailed a questionnaire as close as possible to January 1 and given adequate time to respond by mail. Those that do not respond by mail are telephoned or possibly enumerated in person during the middle of January.

**Estimation Procedures:** Sound statistical methodology is employed to derive the estimates from reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations were estimated based on similar operations or historical data. NASS Regional Field Offices prepare these estimates by using a combination of survey indications and historic trends. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness.

**Revision policy:** Estimates for the previous year are subject to revision when current estimates are made. Revisions are the result of late or corrected data.

**Reliability:** In the six published states, catfish production estimates are based on a census of all known active producers and therefore, have no sampling variability. However, since all operations in the other states category are not included in the sample, survey estimates are subject to sampling variability. Survey results are also subject to errors such as omissions, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

## Information Contacts

Listed below are the commodity specialists in the Livestock Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to [nass@usda.gov](mailto:nass@usda.gov)

Travis Averill, Chief, Livestock Branch .....	(202) 692-0069
Jean Porter, Head, Poultry and Specialty Commodities Section .....	(202) 690-3223
Holly Brenize – Poultry Slaughter .....	(202) 720-0585
Liana Cuffman – Catfish and Trout, Mink, Census of Aquaculture .....	(202) 720-8784
Fatema Haque – Turkey Hatchery, Turkeys Raised .....	(202) 720-3244
Derron Martin – Chicken Hatchery, Egg Products .....	(202) 690-3237
Seth Riggins – Honey, Honey Bee Colonies .....	(202) 690-4870
Shulonda Shaw – Cold Storage, Capacity of Refrigerated Warehouses .....	(202) 720-3240
Autumn Stone – Layers, Eggs .....	(202) 690-3676
Takiyah Walker – Broiler Hatchery .....	(202) 720-6147

## Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: [www.nass.usda.gov](http://www.nass.usda.gov).
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit [www.nass.usda.gov](http://www.nass.usda.gov) and click on “National” or “State” in upper right corner above “search” box to create an account and select the reports you would like to receive.
- Cornell’s Mann Library has launched a new website housing NASS’s and other agency’s archived reports. The new website, <https://usda.library.cornell.edu>. All email subscriptions containing reports will be sent from the new website, <https://usda.library.cornell.edu>. To continue receiving the reports via e-mail, you will have to go to the new website, create a new account and re-subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: <https://usda.library.cornell.edu/help>. You should whitelist [notifications@usda-esmis.library.cornell.edu](mailto:notifications@usda-esmis.library.cornell.edu) in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@usda.gov](mailto:nass@usda.gov).

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at [www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer](http://www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer), or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at [program.intake@usda.gov](mailto:program.intake@usda.gov).
