

appropriate estimation of abundance of the relevant species or stock in our determination of whether an authorization is limited to small numbers of marine mammals. When the predicted number of individuals to be taken is fewer than one-third of the species or stock abundance, the take is considered to be of small numbers. Additionally, other qualitative factors may be considered in the analysis, such as the temporal or spatial scale of the activities.

NMFS proposes to authorize incidental take by Level B harassment only of 15 marine mammal species with 16 managed stocks. The total amount of takes proposed for authorization relative to the best available population abundance is less than 7 percent for any of the 16 managed stocks (Table 4). The take numbers proposed for authorization are considered conservative estimates for purposes of the small numbers determination as they assume all takes represent different individual animals, which is unlikely to be the case.

Based on the analysis contained herein of the proposed activity (including the proposed mitigation and monitoring measures) and the anticipated take of marine mammals, NMFS preliminarily finds that small numbers of marine mammals would be taken relative to the population size of the affected species or stocks.

Unmitigable Adverse Impact Analysis and Determination

There are no relevant subsistence uses of the affected marine mammal stocks or species implicated by this action. Therefore, NMFS has determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

NMFS Office of Protected Resources (OPR) is proposing to authorize take of four species of marine mammals which are listed under the ESA, including

NARW, fin whale, sei whale, and sperm whale, and has determined these activities fall within the scope of activities analyzed in the NMFS GARFO programmatic consultation regarding geophysical surveys along the U.S. Atlantic coast in the three Atlantic Renewable Energy Regions (completed June 29, 2021; revised September 2021).

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to issue an IHA to COSW for conducting marine site characterization surveys in coastal waters off of New Jersey and New York in the New York Bight for a period of 1 year, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed IHA can be found at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-other-energy-activities-renewable>.

Request for Public Comments

We request comment on our analyses, the proposed authorization, and any other aspect of this notice of proposed IHA for marine site characterization surveys. We also request comment on the potential renewal of this proposed IHA as described in the paragraph below. Please include with your comments any supporting data or literature citations to help inform decisions on the request for this IHA or a subsequent renewal IHA.

On a case-by-case basis, NMFS may issue a one-time, one-year renewal IHA following notice to the public providing an additional 15 days for public comments when (1) up to another year of identical or nearly identical activities as described in the Description of Proposed Activity section of this notice is planned or (2) the activities as described in the Description of Proposed Activity section of this notice would not be completed by the time the IHA expires and a renewal would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to the needed renewal IHA effective date (recognizing that the renewal IHA expiration date cannot extend beyond one year from expiration of the initial IHA).

- The request for renewal must include the following:

- An explanation that the activities to be conducted under the requested renewal IHA are identical to the activities analyzed under the initial

IHA, are a subset of the activities, or include changes so minor (*e.g.*, reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take).

- A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Dated: April 18, 2023.

Kimberly Damon-Randall,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Finance Program Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 19, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Finance Program Requirements.
OMB Control Number: 0648–0012.
Form Number(s): 88–1.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 336.

Average Hours per Response: Program Application, 10 hours; Annual Financial Statement, 2 hours; Guarantor Consent, 5 minutes.

Total Annual Burden Hours: 1,194.

Needs and Uses: This request is for an extension of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) operates a direct loan program to assist in financing certain actions relating to commercial fishing vessels, shoreside fishery facilities, aquaculture operations, and individual fishing quotas. Application information is required to determine loan eligibility pursuant to 50 CFR part 253 and to determine the type and amount of financial assistance available to the applicant. Applicants are required to submit NOAA FORM 88–1, and supporting financial documents. An annual financial statement is required from the recipients to monitor the financial status of the loan. Small stylistic changes have been made to the NOAA FORM 88–1 to make the form easier for the applicant to understand and to fill electronically.

Affected Public: Individuals or households; business or other for-profit organizations.

Frequency: At application, annually thereafter.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: 50 CFR part 253.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0012.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; American Lobster—Annual Trap Transfer Program

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 20, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0673 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Douglas Potts, Fishery Policy Analyst, 978–281–9341 or Douglas.Potts@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The American lobster resource and fishery are cooperatively managed by the states and NMFS under the authority of the Atlantic Coastal Fisheries Cooperative Management Act, according to the framework established by the Atlantic States Marine Fisheries Commission (ASMFC) in Amendment 3 of its Interstate Fishery Management Plan (ISFMP). This collection of information is in response to several addenda to Amendment 3 of the ISFMP that work to reduce trap fishing effort

through limited entry fishing and trap allocation limit reductions. The Trap Transfer Program is intended to foster economic flexibility for the lobster industry while reducing fishing effort on the American lobster resource. The regulations implementing the FMP in the EEZ are specified at 50 CFR part 697.

This collection of information is being conducted to help mitigate the economic burden of scheduled trap allocation reductions in Lobster Conservation Management Areas 2 and 3 on Federal lobster permit holders through the Annual Lobster Trap Transfer Program, which allows all qualified Federal lobster permit holders to buy and sell trap allocation from Areas 2, 3, or Outer Cape Cod. NMFS collects application forms from Lobster permit holders who wish to transfer trap allocation from these areas during a 2-month period (from August 1 through September 30) each year; and the revised allocations resulting from the transfers become effective for each participating lobster permit at the start of the following Federal lobster fishing year, on May 1. Both the seller and buyer of the traps are required to sign the application form, date the document, and clearly show that the seller has sufficient allocation to transfer and that the buyer has sufficient room under the applicable trap cap. There were no modifications to this collection.

II. Method of Collection

Applications for the Trap Transfer Program are accepted annually from August 1 through September 30 by mail or email.

III. Data

OMB Control Number: 0648–0673.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; business or other for-profit organizations; State, local, or Tribal government; Federal Government.

Estimated Number of Respondents: 204.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 17.

Estimated Total Annual Cost to Public: \$492.

Respondent's Obligation: Required to obtain or retain benefits.

Legal Authority: Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5101 *et seq.*).
