PRODUCT & ATTRIBUTE SEARCH GC-MS DRUG IDENTIFICATION TOOL SYNTHETIC CANNABINOID FILPBOOK FENTANYL ANALOG SCREENING (FAS) KIT

Fentanyl Analog Screening (FAS) Kit

The Centers for Disease Control and Prevention (CDC) has developed [Traceable Opioid Material \(TOM\)](#) to support laboratory detection of current and emerging opioids in the U.S. The CDC has contracted Cayman Chemical to manufacture and distribute the FAS kit, which is part of the Traceable Opioid Material (TOM) Kits product line. The FAS kit and its expansion panels (Emergent Panels Version 1, 2, 3, and 4) contain analog reference materials that enable labs to screen for 250 synthetic opioid compounds, including more than 210 fentanyl analogs. To view the entire list of compounds included in the kit, please download the [compound list \(PDF\)](#).

FAS Kit Application

To be considered for a free FAS kit, please ensure your lab meets the eligibility requirements stated above and completely fill out the application below.

If you need the FAS kit materials in a different format, please email info@caymanchem.com to outline how these materials could be better supplied.

TOM™, TRACEABLE OPIOID MATERIAL™, and TOM KITS® are registered marks of the U.S. Department of Health and Human Services.

CDC estimates the average public reporting burden for this collection of information as 4 minutes per response, including the time for reviewing instructions, searching existing data information sources, gathering, and maintaining the data information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (D-20-1313).

Does your laboratory have the capabilities to handle substances that may be controlled in your region and obtain any necessary import authorizations required to receive these products?
 Yes
 No

Which test kit(s) are you requesting? (provide quantity requested)

Fentanyl Analog Screening (FAS)

FAS Version 1

FAS Version 2 and 3

FAS Version 4

Which test kit(s) have you previously received? (provide quantity)

Fentanyl Analog Screening (FAS)

FAS Version 1

FAS Version 2 and 3

FAS Version 4

Which of the following best describes your laboratory?

- Academic Research Laboratory
- Environmental Laboratory
- Government Crime Laboratory
- Government Toxicology Laboratory
- Private or Public Clinical Laboratory
- Other (please specify)

Which of the following tests or services are performed by your laboratory? (Select all that apply)

- Select drug sample testing
- Post-mortem toxicology sample testing
- Workplace drug screening
- Newborn drug screening
- Drug pharmacology and pharmacokinetics research
- Clinical testing for disease diagnosis and treatment
- Other (please specify)

Which of the following drug categories does your laboratory test for? (Select all that apply)

- Opioids
- Synthetic Cannabinoids
- Stimulants and Hallucinogens
- Benzodiazepines

On average, how many opioid-related samples does your laboratory analyze on a weekly basis?

- < 100
- 100 - 500
- 501 - 1000
- > 1000

Which of the following analytical techniques do you perform in your laboratory? (Select all that apply)

- Immunology
- Infrared Spectroscopy
- Mass Spectrometry
- Nuclear Magnetic Resonance Spectroscopy
- Raman Spectroscopy
- X-ray Diffraction
- Chromatographic Separation
- UV/Vis
- Other (please specify)

Which matrix type does your laboratory analyze? (Select all that apply)

- Blood
- Urine
- Drug Powders
- Waste Water
- Other (please specify)
