Data Accuracy and Completeness Acknowledgement (DACA)

The DACA is an annual requirement for providers participating in the Hospital IQR, IPFQR, and PCHQR Programs to electronically acknowledge that the data submitted to these programs by or on behalf of the providers are accurate and complete to the best of their knowledge.

IPFQR | IQR/HACRP

Data Accuracy and Completeness Acknowledgement (DACA)

I acknowledge that to the best of my ability all of the information reported for this Inpatient Psychiatric Facility (IPF) Quality Reporting (IPFQR) Program, as required for the Fiscal Year 2024 IPFQR Program requirements, is accurate and complete. This information includes the following:

- Aggregated data for all required measures
- Non-measure data
- Current Notice of Participation

I understand that this acknowledgement covers all IPFQR information reported by this inpatient psychiatric hospital or psychiatric unit (and any data vendor(s) acting as agents on behalf of this IPF) to CMS and its contractors, for the FY 2024 payment determination year. To the best of my knowledge, this information was collected in accordance with all applicable requirements. I understand that this information is used as the basis for the public reporting of quality of care.

I understand that this acknowledgement is required for purposes of meeting any Fiscal Year 2024 IPFQR Program requirements.

Position

 I confirm that the information I have submitted is accurate and complete, to the best of my knowledge.

Web-Based Data Submission

Starting with the summer 2023 data submission period, IPFs must submit data via XML file upload into the *HQR Secure Portal*. IPFs that use the CMS Abstraction & Reporting Tool (CART) to abstract IPFQR Program measure data can only do so for the patient-level measures because the IPF module in CART is not designed to abstract aggregate, facility-level data. Thus, IPFs using CART to create XML files for patient-level reporting must manually enter the non-measure data and the data elements of the Hospital-Based Inpatient Psychiatric Services (HBIPS)-2 and HBIPS-3 denominator value directly into a data entry form in the *HQR Secure Portal*.

The final mockups of this data entry page are in development and not available at this time; however, the images below relative to non-measure data closely align with the latest version of mockups that were shared with us by the ADO. These images also closely align with the anticipated data entry pages for newly proposed aggregate measures, that is the Screening for Social Drivers of Health measure, the Screen Positive Rate for Social Drivers of Health measure, and the Psychiatric Inpatient Experience (PIX) survey measure.
