

# ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

## CET – Annotated Questionnaire (Wave 74)

Note: The questions below are the proposed questions for the 74<sup>th</sup> wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about routine childhood vaccines, vaccines for children under 5, COVID risk and testing, and rebound cases.

For the next section we would like to talk about current events.

//BASE: All respondents//

Item #: Q1

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh1\_cet\_r: Have you received a COVID-19 vaccine?

Variable Label: beh1\_cet\_r: Vaccination behavior

| Value | Value Label                                                          |
|-------|----------------------------------------------------------------------|
| 0     | No, I have not received a COVID-19 vaccine                           |
| 1     | Yes, but I have only received one shot out of the two required shots |
| 2     | Yes, I have received all of the required shots                       |
| -99   | Refused                                                              |

// Page Break //

//BASE: beh1\_cet\_r=1 or 2//

Item #: Q2

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vaccine\_id: Which COVID-19 vaccine did you receive?

Variable Label: vaccine\_id: Vaccine ID

| Value | Value Label               |
|-------|---------------------------|
| 2     | Johnson & Johnson/Janssen |
| 3     | Moderna                   |
| 4     | Pfizer-BioNTech           |
| 6     | Novavax                   |
| 5     | Other                     |
| 99    | I do not remember         |

|      |            |
|------|------------|
| -99  | Refused    |
| -100 | Valid skip |

// Page Break //

//BASE: beh1\_cet\_r=2//

Item #: Q3

Question Type: Dropdown menu

// Soft Prompt: "We would like your response to this question." //

**fully\_vacc\_date2:** Approximately when did you receive your final COVID-19 vaccine dose? Final vaccine dose refers to either the second dose of the Pfizer, Moderna, or Novavax vaccine, or the single dose of the Johnson & Johnson vaccine.

Please do not consider booster shots for this question. If you do not remember the exact date, give your best guess.

**Variable Label:** fully\_vacc\_date2: Date of vaccination

Participants select date from range: December 1, 2020 to present

// Page Break //

//BASE: beh1\_cet\_r=2//

Item #: Q4

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

**booster\_uptake4:** U.S. health officials and medical experts now recommend COVID-19 vaccine booster shots. Have you received a COVID-19 vaccine booster shot?

**Variable Label:** booster\_uptake4: Booster uptake – April 2022 guidance

| Value | Value Label                          |
|-------|--------------------------------------|
| 0     | No                                   |
| 1     | Yes, I have received 1 booster shot  |
| 2     | Yes, I have received 2 booster shots |
| -99   | Refused                              |
| -100  | Valid skip                           |

// Page Break //

//BASE: (booster\_uptake4=0 & vaccine\_id=2 & fully\_vacc\_date2=before June 19, 2022)  
OR (booster\_uptake4=0 & vaccine\_id=3-4 & fully\_vacc\_date2=before March 19, 2022) //

Item #: Q5

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

**booster\_elig\_uptake3:** You are currently eligible to receive a COVID-19 vaccine booster shot. What is the likelihood that you will get one?

**Variable Label:** booster\_elig\_uptake4: Booster uptake likelihood – eligible adults

| Value | Value Label                 |
|-------|-----------------------------|
| 1     | Very unlikely               |
| 2     | Somewhat unlikely           |
| 3     | Neither likely nor unlikely |
| 4     | Somewhat likely             |
| 5     | Very likely                 |
| -99   | Refused                     |
| -100  | Valid skip                  |

// Page Break //

//BASE: (booster\_uptake4=0 & vaccine\_id=2 & fully\_vacc\_date2=June 19, 2022 or later)  
OR (booster\_uptake4=0 & vaccine\_id=3-4 & fully\_vacc\_date2=March 19, 2022 or later)

Item #: Q6

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

**booster\_likely\_v2:** What is the likelihood that you will get a COVID-19 vaccine booster shot when eligible?

**Variable Label:** booster\_likely\_v2: Booster uptake likelihood – not yet eligible

| Value | Value Label                 |
|-------|-----------------------------|
| 1     | Very unlikely               |
| 2     | Somewhat unlikely           |
| 3     | Neither likely nor unlikely |
| 4     | Somewhat likely             |
| 5     | Very likely                 |
| -99   | Refused                     |
| -100  | Valid skip                  |

// Page Break //

//BASE: beh1\_cet\_r=0 OR -99//

Item #: Q7

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

**beh2a\_cet:** What is the likelihood that you will get a COVID-19 vaccine?

**Variable Label:** beh2a: Intention to get vaccinated

| Value | Value Label                 |
|-------|-----------------------------|
| 1     | Very unlikely               |
| 2     | Somewhat unlikely           |
| 3     | Neither likely nor unlikely |
| 4     | Somewhat likely             |
| 5     | Very likely                 |
| -99   | Refused                     |
| -100  | Valid Skip                  |

// Page Break //

//BASE: beh1\_cet\_r=0 OR -99//

Item #: Q8

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

**beh3a\_cet\_r:** How soon will you get vaccinated?

**Variable Label:** beh3a\_cet\_r: Wait to get vaccinated

| Value | Value Label                                          |
|-------|------------------------------------------------------|
| 1     | I will get a vaccine as soon as I can                |
| 2     | I will wait to get a vaccine for one or more reasons |
| 3     | I will never get a COVID-19 vaccine                  |
| -99   | Refused                                              |
| -100  | Valid Skip                                           |

// Page Break //

//BASE: All respondents//

Item #: Q9

Question Type: Multi punch

// Soft Prompt: "We would like your response to this question." //

**parent:** Are you the parent of a child or children in the following age groups?

**Variable Label:** parent: Parent of children in following age groups

| Value | Value Label                                                               |
|-------|---------------------------------------------------------------------------|
| 1     | Younger than 6 months old                                                 |
| 2     | 6 months to <2 years old                                                  |
| 3     | 2 to 4 years old                                                          |
| 4     | 5 to 11 years old                                                         |
| 5     | 12 to 15 years old                                                        |
| 6     | 16 to 17 years old                                                        |
| 99    | None of the above, I do not have children in those age groups [EXCLUSIVE] |
| -99   | Refused                                                                   |

**testing2:** COVID-19 tests fall into two categories: Rapid tests (such as antigen tests) give results in a few minutes, and can be at-home tests or tests given at a pharmacy or other location. Laboratory tests (such as PCR tests) can also be taken at home or given at a pharmacy or other location, but must be sent to a laboratory to determine the results and it often takes a few days to receive results.

In the last month, have you...

| Variable Name | Variable Text                        | Variable Label                   |
|---------------|--------------------------------------|----------------------------------|
| testing2_1    | Taken a rapid test for COVID-19      | testing2_1: Took rapid test      |
| testing2_2    | Taken a laboratory test for COVID-19 | testing2_2: Took laboratory test |

| Value | Value Label                                              |
|-------|----------------------------------------------------------|
| 0     | No, I have not taken this kind of test in the last month |
| 1     | Yes, and I tested <u>negative for COVID-19</u>           |

|     |                                                |
|-----|------------------------------------------------|
| 2   | Yes, and I tested <u>positive</u> for COVID-19 |
| -99 | Refused                                        |

Item #: Q19

Question Type: Ranked choice

// Soft Prompt: "We would like your response to this question." //

**boost\_exp:** We are interested in your opinion about the phrasing of some messages about COVID-19 boosters.

Please rank the following messages from 1 to 6, with 1 being the message you think is most likely to motivate someone to get a booster, and 6 being the message you think is least likely to motivate someone to get a booster.

//PROGRAMMING NOTE: RANDOMIZE response options//

Variable Label: boost\_exp: Most motivating to get a booster

| Value | Value Label                                   |
|-------|-----------------------------------------------|
| 1     | An updated booster is now available.          |
| 2     | A new booster is now available.               |
| 3     | A reformulated booster is now available.      |
| 4     | A variant-specific booster is now available.  |
| 5     | An omicron-specific booster is now available. |
| 6     | A modified booster is now available.          |
| -99   | Refused                                       |

**motiv\_message:** We are interested in your opinion about the following messages.

How motivating do you think someone would find the following statements about getting a COVID-19 booster?

//PROGRAMMING NOTE: RANDOMIZE variables in grid//

| Variable Name | Variable Text | Variable Label |
|---------------|---------------|----------------|
|---------------|---------------|----------------|

|                       |                                                                                                                                                                                              |                                                         |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|
| motiv_message_1:<br>1 | COVID can cause severe disease, hospitalization, or death. Vaccines and boosters offer you the best protection from the worst outcomes of COVID.                                             | motiv_message_1:<br>Best protection from worst outcomes |
| motiv_message_2:<br>2 | Over time, vaccines may become less effective at preventing COVID. Getting your COVID booster extends your protection and keeps you safer from emerging variants.                            | motiv_message_2:<br>Booster extends protection          |
| motiv_message_3:<br>3 | Just because you had COVID doesn't mean you can't get it again. A COVID vaccine and booster are the best way to protect yourself against serious illness, hospitalization, and death.        | motiv_message_3:<br>Repeat infections                   |
| motiv_message_4:<br>4 | CDC recommends that everyone ages 12 and older who are vaccinated get a COVID booster 5 months after their Pfizer or Moderna vaccination, or 2 months after a Johnson & Johnson vaccination. | motiv_message_4: 12 and older                           |
| motiv_message_5:<br>5 | If you're vaccinated and boosted, you're 2x less likely to get COVID than if you're unvaccinated. Getting vaccinated and boosted is your best defense against COVID.                         | motiv_message_5: 2x less likely to get COVID            |
| motiv_message_6:<br>6 | You can get your COVID booster and flu vaccine at the same time.                                                                                                                             | motiv_message_6:<br>Booster and flu shot                |
| motiv_message_7:<br>7 | During colder weather when people gather indoors, COVID will have more opportunities to spread. You can help stop it by getting your booster and wearing a mask in indoor public spaces.     | motiv_message_7:<br>Colder weather                      |
| motiv_message_8:<br>8 | You can stay safer this winter if you get your booster as soon as you reach your eligibility date.                                                                                           | motiv_message_8:<br>Stay safer this winter              |
| motiv_message_9:<br>9 | The updated boosters offer protection against both the original COVID strain and the current Omicron strain.                                                                                 | motiv_message_9:<br>Original and Omicron                |

| Value | Value Label           |
|-------|-----------------------|
| 1     | Not at all motivating |
| 2     | Slightly motivating   |
| 3     | Moderately motivating |
| 4     | Very motivating       |
| -99   | Refused               |

Item #: Q23

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question."//

**rebound:** Some people who get COVID-19 have "rebound cases." Rebound cases happen if a person starts having COVID-19 symptoms again or tests positive again after having tested negative, 2-8 days after they first recovered from having COVID-19.

Do any of the following statements apply to you?

| Variable Name | Variable Text                                                             | Variable Label                 |
|---------------|---------------------------------------------------------------------------|--------------------------------|
| rebound_1     | I have had a rebound case of COVID-19.                                    | rebound_1: Had a rebound case  |
| rebound_2     | I personally know someone who has had a rebound case of COVID-19.         | rebound_2: Know someone        |
| rebound_3     | I have heard or read about people who have had rebound cases of COVID-19. | rebound_3: Heard or read about |

| Value | Value Label |
|-------|-------------|
| 0     | No          |
| 1     | Yes         |
| -99   | Refused     |
