

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. This wave re-fields questions on awareness of updated vaccine authorization and eligibility, updated vaccine knowledge, perceived COVID risk, COVID testing, chronic conditions, perceptions of a winter surge, and opinions about COVID restrictions. New questions include those on COVID treatments, risk of COVID complications, and new messages.
