Persons are not required to respond to this collection of information unless it displays a valid OMB control number. The Occupational Safety and Health Administration (OSHA) requires State On-Site Consultation program Consultants to review the Interim Year Safety and Health Achievement Recognition Program (SHARP) Site Self-Evaluation Template completed and submitted by employers participating in SHARP and provide any necessary technical assistance.

Employers participating in SHARP must conduct continuous assessment of the effectiveness of the safety and health program implemented in their workplace; complete the Interim Year SHARP Site Self-Evaluation Template in the year following the last on-site evaluation by the Consultant to assess criteria for SHARP participation; and submit the template to the Consultation program.

In accordance with 29 CFR 1908.6(h)(1) and (2), Consultants must preserve the confidentiality of information obtained as a result of a consultative visit, including information that contains or might reveal a trade secret of the employer.

OSHA estimates that it will take an employer an average of 3 hours to complete the self-evaluation and a Consultant an average of 2 hours to review and provide any necessary technical assistance to facilitate effective safety and health program implementation by small business employers participating in SHARP.
