SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (Nov. 25, 2002), the Department of Homeland Security (DHS)/United States Coast Guard (USCG) have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records regarding marine, safety and law enforcement information.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a USCG system of records under the Privacy Act (5 U.S.C. 552a) that deals with marine safety and law enforcement information. This record system will allow DHS/USCG to collect and maintain records regarding marine safety and law enforcement information. This record system will allow the Department of Homeland Security/United States Coast Guard to collect and maintain records regarding marine information and law enforcement information.

In accordance with the Privacy Act of 1974, and as part of the Department of Homeland Security's ongoing effort to review and update legacy system of record notices, the Department of Homeland Security is giving notice that it proposes to add a system of records to its inventory of record systems titled United States Coast Guard Marine Information System and Law Enforcement System of Records. system is a compilation of five legacy record systems: DOT/CG 679, Marine Information for Safety and Law Enforcement System (67 FR 19612 April 22, 2002), DOT/CG 588, Marine Safety Information System (65 FR 19475 April 11, 2000), DOT/CG 505, Recreational Boating Law Enforcement Case Files (65 FR 19475 April 11, 2000), DOT/CG 590, Vessel Identification System (65 FR 19475 April 11, 2000), DOT/CG 591, Merchant Vessel Documentation System (65 FR 19475 April 11, 2000). This record system will allow the Department of Homeland Security/United States Coast Guard to collect and maintain records regarding marine safety, security, environmental protection and law enforcement information. Categories of individuals, categories of records, and routine uses of these legacy systems of records notices have been consolidated and updated to better reflect the United States Coast

Guard's marine safety, security, environmental protection and law enforcement record systems. Additionally, DHS is issuing a Notice of Proposed Rulemaking (NPRM) concurrent with this SORN elsewhere in the Federal Register. The exemptions for the legacy system of records notices will continue to be applicable until the final rule for this SORN has been completed. This new system will be included in the Department of Homeland Security's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses and disseminates personally identifiable information. The Privacy Act applies to information that is maintained in a ``system of records.'' A ``system of records'' is a group of any records under the control of an agency from which information is stored and retrieved by the name of the individual or by some identifying number such as property address, mailing address, or symbol assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and legal permanent residents. DHS extends administrative Privacy Act protections to all individuals where information is maintained on both U.S. citizens, lawful permanent residents, and visitors. Individuals may request their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the Marine Information for Safety and Law Enforcement System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this new system of records to the Office of Management and Budget and to Congress.
