SUPPLEMENTARY INFORMATION: As part of 6 U.S.C. 313-314, and section 611 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, (codified at 42 U.S.C. 5196), the mission of the Federal Emergency Management Agency (FEMA) is to reduce the loss of life and property and protect the Nation from all hazards by leading and supporting the Nation in a risk-based, comprehensive emergency management system of preparedness, protection, response, recovery, and mitigation. FEMA's Individual and Community Preparedness Division (ICPD) supports the FEMA Mission by connecting individuals, organizations, and communities with research and tools to build and sustain capabilities to prepare for any disaster or emergency. The Division conducts research to better understand effective preparedness actions and ways to motivate the public to take those actions. ICPD develops and shares preparedness resources and coordinates comprehensive disaster preparedness initiatives that empower communities to prepare for, protect against, respond to, and recover from a disaster. This mission is achieved through close coordination with the FEMA Regions and working relationships with Federal, state, local, and Tribal agencies. This includes working with nongovernmental partners from all sectors both nationally and through neighborhood-based community groups.

This collection will allow ICPD to gather the following information from the public via web form(s):

- **Feedback:** General feedback on the effectiveness of national FEMA preparedness programs and initiatives and website user experience
- **Activity Details:** Information regarding the type, size and location of preparedness activities hosted by members of the public and community organizers
- **POC Information:** For registration within the site and follow-on communication, if needed
- **Future Engagement Requests:** Allow for the public to enroll in the ICPD newsletter or other public communications
- **Publication Ordering:** Submitting requests to the FEMA publication warehouse to have materials shipped directly to members of the public

This proposed information collection previously published in the **Federal Register** on March 31, 2023, at 88 FR 19316 with a 60-day public comment period. One public comment was received regarding the benefit of collecting this information to the public. ICPD uses data regularly in order to develop efficient and effective preparedness programming for individuals and communities across the nation. Data collection, including asking the public for their opinions on ICPD educational materials, helps ICPD make informed decisions about program development and program revision cycles. The collection mentioned in this information collection request contains multiple methods for the public to freely share their perspectives and opinions on ICPD programming online.

The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.
