INSTRUCTIONS FOR WRITING THE JUSTIFICATION FOR THE NOMINEE

The nominator shall thoroughly complete the DHS Form 9014. Completion by the nominee is prohibited.

- Retrieve the nominee's information during the vetting and interviewing process, and complete the DHS Form 9014.
- Interview the nominee's FSO/CSO to ensure the nominee meets the criteria and has a need-to-know.

If multiple nominees are submitted, **each** nominee will need an individual justification written up and a separate form submitted.

- Do not use a justification template when submitting justifications.
- Each nominee's justification should be tailored to their mission within DHS and the Sector.

Justification Guidelines:

1. Determine if the nominee is a Subject Matter Expert (SME) that has been selected to assist the Federal or State Critical Infrastructure (CI) mission and is in a leadership or executive level position that can capitalize on the value of the classified information being shared.
 - Verify that a DHS or a federal entity, Sector Specific Agency (SSA), or Sector representative requested the nominee's expertise and intends to share classified information with the individual.
2. Determine the Federal requirements that need to be met for the nominee to be granted access to classified information as it relates to CI.
3. Define which Federal mission activity or Federal Office will be directly engaged with the nominee.
4. Describe the nominee's need-to-know in detail.
5. Describe how the nominee will effectively utilize the classified information that is intended to be shared.
 - It must involve a DHS related mission – not a company specific mission.
6. Define the frequency and location where the nominee will access classified information.
 - What are the approved facilities where the nominee is expected to access classified information?
 - **Note:** Access to classified information at private sector locations are only authorized for entities that have a facility.
 - Who in DHS, FBI or State Fusion Center will be sharing classified information with the nominee?
 - Nominators must also validate with the identified Federal entities if they have a requirement and intention to share classified information with the nominee. (Access to classified information is dependent on an existing Federal relationship. If there is no defined Federal requirement, the nominee should not be submitted).
7. Provide a statement of CI work the nominee will be associated with in their assigned Sector.
8. Contact the SSA as necessary to validate the Sector's requirements for providing classified access and to determine if the nominee is a member of a Sector Coordinating Council (SCC) or Information Sharing and Analysis Center (ISAC).
 - Access is not based solely on position or who the nominee knows.
 - A nominee's duty description, affiliations or accolades are not sufficient to support a justification.
