#### **Section 2: Import Transaction Data**

In the table below, enter data for each import transaction containing a class II controlled substance that took place during the reporting period. If no controlled substances were imported, the table may be left blank. For all controlled substances that are imported, all fields are required unless otherwise indic party transformation or second party destruction, a copy of the transformation and/or destruction verification from each company for whom material was imported must be provided to EPA along with the submission of this report.

Summary of Class II Controlled Substances Imported

lf copying and pasting data into the table, please refer to the Reference List and the accompanying instructions.

If blends were imported, refer to the table of HCFC blends provided in the Blend Breakout tab, as needed.

### **Section 3: Shipment Data**

Identify the recipient company(s) of the material imported for second party transformation or second party destruction, and the amount shipped to each company during the quarter.

**Note:** Due to a potential time lag between the date of import and the date of shipment, it is recognized that for a given quarter the information in Section 3 may not match the information reported in Section 2; however, it is expected that all material imported for second party transformation or second party destruction will eventually be shipped to a second party and must be reported as such in the applicable quarterly report.

If copying and pasting data into the table, please refer to the Reference List and the accompanying instructions.

As a reminder, a copy of the transformation or destruction verification from each second party for whom material was imported must be provided to EPA along with the submission of this report.
