Please make corrections to name, address, and ZIP Code, if necessary.

The information you provide will be used for statistical purposes only. Your responses will be kept confidential and any person who willfully discloses ANY identifiable information about you or your operation is subject to a jail term, a fine, or both. This survey is conducted in accordance with the Confidential Information Protection provisions of Title V, Subtitle A, Public Law 107-347 and other applicable Federal laws. For more information on how we protect your information please visit: <https://www.nass.usda.gov/confidentiality>. Response is voluntary.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is . The time required to complete this information collection is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

**PLEASE READ THE INSTRUCTIONS ON PAGE 2 BEFORE COMPLETING THIS REPORT.**

## DEFINITIONS AND INSTRUCTIONS FOR REPORTING

1. **Report Quantity Received and Value Per Unit on a Pay-Weight Basis:** The term "pay-weight" refers to the quantity of the product delivered and paid for at the rate or rates specified in contract or purchase agreements. Culls and rejects received, but considered being of no value (including tonnage for which the grower received a nominal amount, such as \$1.00 a ton in lieu of the return of the dockage), should not be included in this report. Processors who establish tolerance for culls and rejects should report the tonnage, which was paid for at the contract rate and should deduct only the dockage for culls and rejects in excess of the prescribed tolerance.
2. **Value Per Unit:** Value per unit is defined as all payments to growers including the costs of materials and services provided (listed in Item 3) to get the raw commodity to the plant receiving door.
3. **Materials and Services Furnished by Processors:** Include costs for the following materials and services furnished without charge to growers and in excess of grower charges.
  - a. preparation, planting, and cultivating (including depreciation and repair of equipment);
  - b. seed or plant costs not deducted (including distribution);
  - c. weed, insect, or disease control (including survey, equipment, application, and materials);
  - d. harvesting costs (including cost of operation, depreciation, repair, moving equipment, and labor procurement);
  - e. delivery cost to the processing plant door (including payment to hired truckers, cost of company trucks, and growing hauling allowances);
  - f. container costs (including upkeep, losses, storage, and transportation);
  - g. field receiving station cost, if located off plant premises (receiving, weighing, loading, etc.);
  - h. passed acreage, if paid for;
  - i. inspection and grading costs (include only if used in purchase of raw products);
  - j. icing and hydro-cooling prior to delivery to plant;
  - k. association service fees, if deducted from the grower payment;
  - l. other costs to the processing plant door;

Do not include brokerage, cost of field personnel, or other buying expenses.

4. **Reported by Cooperative:** For cooperatives, the average value per unit reported should reflect total payments to growers, plus other costs listed in Item 3 for the quantity delivered as defined in Item 1. Do **not** include dividends paid growers, which are based on capital stock ownership. If all payments have not been made to growers, please estimate the average total payments to growers in arriving at per unit value as defined in Item 2. Label it "Estimate" and indicate the date when final figures should be available. We will contact you at that time for your final average value per unit.
5. If the harvest has not been completed, please estimate the acreage that will be harvested and the total tonnage that will be received.
6. Include all tonnage bought from growers even if some was sold to other processors. Do **not** include tonnage bought from other processors.

**Tomatoes for Processing 2021 End of Season**

1. Acreage and Receipts of Tomatoes for Processing - 2021 Crop

LOCATION OF ACREAGE Please List Each County Separately	Contracted of Grown by Your Firm			Pay-Weight Purchased Outside of Contracted Acreage in Tons
	Planted Acres	Harvested Acres	Pay-Weight Received in Tons	
Other States:				
TOTAL				

2. Average value per ton for 2021, delivered to the processing plant (pay-weight basis)..... Dollars Per Ton

3. Final average value per ton for 2020, delivered to the processing plant (pay-weight basis)..... Dollars Per Ton

**TOMATOES FOR PROCESSING 2022 INTENTIONS**

1. Will this operation handle any tomatoes in 2022?

100  Yes - Continue                      3  No - Go to Conclusion

Please report 2022 intended contract acreage and tonnage of tomatoes for processing (include both round and pear types). Enter both acres and tons, either by reporting acres and deriving tons or by reporting tons and deriving acres.

2. How many paid tons does your firm expect to process in 2022 through your California plants?.....  **Pay Weight Tons**

3. How many total acres do you expect will be required to achieve the above tons?.....  **Acres**

4. What was the method of reporting for Items 2 and 3?

103  Tonnage Converted to Acres      3  Acreage Converted to Tons

5. Will this operation handle any tomatoes from outside California in 2022?

104  Yes - Continue                      3  No - Go to Conclusion

6. Please indicate the States where tomatoes will be grown in 2022:

**CONCLUSION**

1. Comments related to the information you reported:
