Instructions for AD-2047

CUSTOMER DATA WORKSHEET

Customers use this form to provide critical customer information to USDA used to positively identify the customer. Data collected includes contact information, citizenship status, birthdates for minor children and demographic information. Customers may also use this form to report changes to their customer record. Submit the original of the completed form by mail, email, Box, OneSpan, or facsimile to the appropriate FSA servicing office.

Customers who have established electronic access credentials with USDA may electronically transmit this form to the USDA servicing office, provided that: (1) the customer submitting the form is the only person required to sign the document, (2) the person signing the document on behalf of another customer has a valid Power of Attorney (Form FSA-211) on file with USDA to sign for the customer. (3) the person signing the document on behalf of a legal entity is an authorized representative of the legal entity.

Features for submitting the form electronically are available to those customers with access credentials only. If you would like to establish online access credentials with USDA, follow the instructions provided at the USDA eForms web site.

Customers must complete Items 1 through 7C.

Part B - Items 8A through 12B are for FSA use only.

^{1[1]}Box is a secure, cloud-based site where FSA documents can be managed and shared. Applicants who choose to use Box can create a username and password to access their secure Box account, where documents can be downloaded, printed, manually signed, scanned, uploaded, and shared digitally with FSA county office staff. This service is available to any FSA customer with access to a mobile device or computer with printer connectivity. Box does not require software downloads or an eAuthentication account.

² OneSpan is a secure eSignature solution for FSA customers. No software downloads or eAuthentication is required for OneSpan. Applicants interested in eSignature through OneSpan can confirm their identity through two-factor authentication (2FA). For the second factor of authentication, applicants can use a text message
